MAGAM DUE SOON TO BUILD COURSE

Word was received from Vernon Macan, of Victoria, recently that he would be in Salem Thursday at which time he would take over all planning of the new Salem golf links, which will be under construction in the near future.

The new course is being promoted by Greel Kay and Graham Sharkey. Ninety-eight charter members have signed up so far which is but two under the desired quota of 100 members. After the 100 members have been signed, the entrance membership fee will be increased considerably.

The course will be open only to members of the club and their guests, as no one will be admitted to play by paying green fees. The two promoters motored to Portland yesterday to purchase pipe and get the estimated costs of different styles of pumps. Today they will be on the links and usher visitors around the course all day. Anyone is invited to give the new links the once over.

Thursday morning Sharkey made a special trip to Corvallis to confer with Professor R. R. Hynd, college agronomist, in regard to the type of best grass that should be used on the new course. Representatives of the Bingham Pump company, Fairbanks Morse, Allis Chambers, and De Laval company called at the course this week to offer bids for material. When completed, the golf course will be one of the best and most beautiful in the country.
