**Brush Lacquer in Glass Jars**

Never before have lacquers  
been offered you, put up in glass  
jars! Each of the 18 attractive  
shades glistens in its crystalline  
container, making easy for you  
the selection of just the ones you  
want—from the actual lacquer it-  
self in its true colors.  
Bottle can be set beside bottle,  
on our counter, and delightful  
color harmonies determined in

advance. What you see in the jar,  
you'll see on the article when it  
is painted.

B-H Brush Lacquer is easy to  
work, too—acts like other paints  
you've used, but dries faster.  
And the jars make attractive  
vases when empty, especially  
when decorated in the new  
"trickle" finish. Be sure and see  
this attractive display.
