We are a family of five and live on a 360-acre farm, so I have quite a good deal to do both indoors and out. Mabel S. Powers Presents Piano Pupils in Interesting Recital
Mabel S. Powers presented a group of her piano students in an interesting recital Tuesday evening at the studio-residence of Professor and Mrs. T. S. Roberts, 505 North Summer street.

Children who took part in the program were Harriet Howard, Jack Powers, Floyd Smith, Frances Roth, Mildred Guthrie, Virginia Holt, Lanea Bellinger, Anne Tartar, and Celia Howard.

The interpretative ability displayed by Frances Roth in each of her three contrasting numbers was extremely unusual in one so young.

Laneta Bellinger played her solos, "Minuet" (Bach) and "Minuet in G" (Beethoven) with exquisite phrasing and unusual charm.

Other outstanding numbers of the program were "Shadow Dance" and "Improvisation" both by MacDowell which were artistically played by Miss Virginia Sisson with an interpretation that raised the compositions entirely from the amateur class.

The delicate touch which characterizes the playing of Celia Howard was particularly well-suited to the selection from the French composer, Chaminade, which was her contribution to the evening's program.

The glorious number, "Andante Finale" (Leschetivsky) gloriously played by Miss Powers at the piano, and Professor Roberts, at the organ, concluded the program. The group of music lovers in attendance insisted on a second rendition of the "Finale."

The studio and living rooms were beautifully decorated for the evening with dozens of baskets of delphinium, geum, and roses.

WORD FROM GEORGE

LOCAL MAN AND MOTHER INJURED IN AUTO MISHAP

Kenneth George, who suffered a broken back in an automobile accident about four miles south of Salem on the Jefferson highway Sunday evening, is resting easy at the Southern Pacific hospital in San Francisco, according to telegrams reaching here. Little change was reported in his condition. George is engine watchman with the railroad here. He was taken south Monday night.

His mother, Mrs. Flora George, 470 South 14th, was also injured in the accident, sustaining two breaks in her right shoulder, a broken rib and severe leg bruises. Mrs. George is at her home here and is recovering nicely.

The accident occurred as Dave Morton of the Hollywood garage, driver, swung the machine into a ditch to avoid hitting a car crossing the highway from a side road. The car driven by Morton was badly wrecked; a hub cap was barely scratched on the other.

Besides Mrs. George, her son and Mr. Morton, Mrs. George's daughter and son-in-law and their girl were occupants of the car, but escaped injury.

POSTURE IMPROVED

FINAL CHECK SHOWS BUT 2.7 PER CENT NEED HELP

But 2.7 per cent of the children in the nine elementary Salem schools needed further aid in posture training when school closed June 1, according to the fourth and final posture check of the year completed on that date by Grace S. Wolzammot, director of physical education in the grades.

The June figure is 2.7 per cent less than the first check last fall, and had it not been that 45 new pupils entered in April, the percentage would have been even lower at the end of the year.

In November, 2239 pupils were checked and 30.7 per cent needed help; the February check found but 11.4 per cent of the 2223 examined needing to overcome physical defects; and in April 2206 children showed 7.1 per cent still needed posture assistance. In June 2157 children were checked, with 50 pupils constituting the 2.7 per cent.

The posture checks endeavor to help the children overcome such physical defects as shoulder wings, short pectoral muscles, flat chests, weak abdominal muscles, protruding heads and pronated and supinated ankles; and in helping them realize the necessity of a well-developed body and a proper standing and sitting position.

In the final check of the year, Englewood had the lowest percentage needing help, .7, and Lincoln had the highest, 9.7 per cent. Eight stars were earned by Englewood children, with other schools ranging between that number and the two awarded at Lincoln.

By grades, the first grade had the largest number of defects, 33; the fifth grade in all schools scored 100 per cent perfect on the last test.

The special rooms showed the following percentage needing further assistance: Richmond, 6.6 per cent; Lincoln, 9.7 per cent; Grant, 13.3 per cent.
