

NON-STOP FLIGHT ACROSS CONTINENT

San Diego Airmen Expect to Make Trip in Eighteen Hours Time

SAN DIEGO, Cal., June 5.—(AP)—With favorable flying weather promised for approximately 1800 miles of the 2219 mile transcontinental nonstop dash to New York, Lee Schoenhair and Harry Tucker expect to take off from Rockwell field at 11:30 a. m. tomorrow. They expect to land at Curtiss field, Long Island, within 18 hours.

Howard E. Morin of the aviation department of the chamber of commerce, representing the contest committee of the National Aeronautic association, sealed the barograph in Schoenhair's Lockheed monoplane today. The plane had been fueled and is ready to leave on the hour scheduled.

Schoenhair and Tucker are attempting to beat the nonstop record of Lieutenants Oakley Kelly and John A. MacReady of 26 hours and 50 minutes.

Schoenhair and Tucker's route of flight will be a direct line from San Diego to New York. They will throw out small parachutes containing messages to the nearest Associated Press office at Phoenix, Tucson, or Santa Rosa, New Mexico; Endicott, Bartlesville, Okla.; Cincinnati, Ohio and Mountsville, W. Va.

The Lockheed Yankee Doodle monoplane in which Schoenhair and Tucker seek to reach the Atlantic seaboard from the Pacific in 18 hours is said by Rockwell field airmen to be the most perfectly streamlined and fastest ship yet set on a transcontinental continuous flight. The maximum flight speed of the ship is 170 miles an hour and its cruising speed 135 miles an hour. It is a sister ship of the famous plane in which George Wilkins recently made his flight over the north pole from Point Barrow to Spitzbergen.

McALESTER, Okla., June 6.—(AP)—Lee Gibson, 28, escaped convict who has been sought in connection with the killing of the four members of the family of Eb Jackson, a farmer of the Jack Fork hills in Pittsburg county, was wounded, and brought to the county jail here by a sheriff's posse last night.

Gibson was arrested at his mother's home, 16 miles north of Clinton, on a warrant charging him with the killing of Jackson and Jackson's 16 year old wife, 15 year old son, Orvil, and 14 year old daughter Abbie, whose bodies were found on the Jackson farm last week.

When Gibson was commanded to halt by the officers, he opened fire. Bullets from the posse killed him.

Parliamentary Orators Use Peculiar Grammar

Among the gems are these: "You wish to regulate death

Students Show Increased Interest in Gym Classes

A resume of the year's work in the department of physical education has just been submitted to the city superintendent by Grace S. Wolgamott, director, and shows a very successful year.

Improvements, including the new instructor's office, restrictive rooms, showers, locker room and lockers, have simplified greatly the handling of the large gymnasium classes at the high school, where, the report notes, physical education work was more popular this year.

An increase of 75 girls in regular gymnasium classes and 20 in restrictive brought the high school classes for the second semester to 420 girls in regular gymnasium, 75 in restrictive and 75 in swimming classes.

Excellent work was accomplished in the swimming classes, with 10 girls passing the Junior Red Cross life-saving test and three the senior test.

Because of the expense, many girls who would like to take the swimming classes cannot. To overcome this difficulty, Mrs. Wolgamott suggests that the school boards offer the YMCA a lump fee for use of the tank so the swimming classes would be open to all the girls.

Interest in the regular gymnasium classes was augmented through the point system sponsored by the Oregon state physical education association. State "O" was earned by 12 girls who had amassed 100 points, and the 50-point numerals were awarded 103 girls.

Esther Arnold won the Snook cup in the efficiency tests. "Mrs. Laverna Lapham, with the valuable assistance of Dr. Estella Ford Warner, made great progress with the 125 girls enrolled in the restrictive classes," states the report.

Two full teams were organized for the interclass sports, with the games handled after school. Games, hygiene, corrective exercises, stunts, tumbling, pyramid building, baseball, folk dancing, clog and character and interpretative dancing were all covered in the work done at Leslie junior high under the leadership of Miss

British Probe May End Engima Red Hair Causes

LONDON.—(AP)—The mystery of red hair, and why it is prevalent in certain families, may be illuminated as one of the results of a survey now being conducted by British education and health authorities.

An anthropometric committee is collecting data from all parts of Britain on the physical characteristics of school children. The effects of environment on physique will thus be further revealed.

The committee's findings may explain why there are so many strongholds of the red-headed in Scotland, and why a vein of red-haired people runs through some counties in England and Wales while in other localities the "reds" are as rare as albinos.
