

AMERICAN BUILDERS TO ATTEND MEETING

Invitation of Mexican Highway Commission and Government Accepted

WASHINGTON, D. C.—The American Road Builders' Association has accepted an invitation of the Mexican Federal Highway Commission and Government to participate in the Second National Highway Congress and Exposition to be held in Mexico City on October 3-4-5-6.

The invitation to the Association comes from Mexico after that country has completed its third year of Federal road construction and on the eve of a large highway construction program that will be participated in by all the Mexican states and cities as well as the Federal Government.

Invitations have also been sent to South and Central American countries to take part in this Congress, and it is expected that delegations will be present from all Pan American countries.

One of the first objectives of the Mexican government is to complete the highway from the United States border to Mexico City, a distance of about 800 miles.

The object of the American Road Builders' Association in accepting the Mexican invitation is scientific and educational. The Association will exhibit the latest methods of highway engineering, showing the plans, maps, details and specifications used in the United States. In addition to this, the most recently developed economic construction methods will be shown by movies and photographs. The most up-to-date road building equipment and materials will be exhibited and arrangements have been made for demonstrations of road building machinery.

In accepting the Mexican invitation to take part in the Second National Highway Congress and Exposition, the Road Builders' Association will act through its Pan American Division, which was recently organized, and will make available to the road builders of Mexico and other Pan American countries the latest and most economic practices in road building.

as now being used in the United States. Special freight rates have been obtained for shipping road building machinery to Mexico, and reduced passenger fares will be in force. Several special trains to Mexico City will be run for the benefit of those wishing to visit the country at that time.

NATIONAL SERVICE NETWORK TO HELP

A nation-wide network of 5000 Seiberling dealers, who have joined Walter Zosel, distributor of Seiberling All-Tread Tires here, will make the Seiberling Tire Protection Plan an unparalleled service feature this summer to Salem motorists. "Car owners of this city, equipped with Seiberling All-Tread tires, will get a glad hand now from any and every one of the 5000 Seiberling dealers in the United States when they strike off for the edges of the world this summer," declared Mr. Zosel.

"The unique Seiberling Protection plan has been enlarged by the addition of thousands of new dealers since the plan was first advanced, so that no matter where you go you will find Seiberling protection service ready for any emergency."

"Only a nation-wide service of this kind, backed by a great national tire organization, can make 'protection' mean more than a pleasant sounding word. What it should mean—and what it does mean to Seiberling users—is that, whether they are ten, a hundred, or a thousand miles from their local dealer, they will get the same protection and service that they do in their own home town."

In case of accident to any Seiberling All-Tread tire—a blow-out, rim cut, bruise, tear or any other road hazard—the Protected Service corporation certificate provides the motorist is to have his tire repaired free of charge by any Seiberling dealer. When a tire is injured beyond repair, the Tire Protection plan provides that with a new tire at one-twelfth the cost, if it occurs during the first month after purchase, at two-twelfths the cost, if it occurs during the second month, etc.

FIRST PRIZE WON BY KLAMATH FLOAT

Rose Festival at Portland Continues Despite Threatening Rains

PORTLAND, June 16.—(AP)—Burlesque and beauty mingled in the annual Merrykhan parade, a rose festival feature, here Friday. Delegations from other cities of the state added life and color to the moving pageant. Klamath Falls' entry of a flower float fitted with children inside giant white pelican heads romped away with first prize in division one for hospitality clubs and civic groups.

The Eugene delegation won the crowds all along the line of march. The American Legion drum corps snappy in uniforms of black and red with red trench helmets headed the Eugene entry. On the heels of the drum corps were two flower decked automobiles bearing six of Lane county's fairest daughters. Then the Radiators, some 50 strong in white flannel marching costumes headed by their chief Clarence J. Elkins.

W. J. Hoffman, chairman of the pageant committee of the rose festival association, said tonight that a detailed statement on finances of the festival was not yet available, but that the directors hoped that receipts would equal expenses.

Uncertain weather throughout the week kept many away from the pageant. "Where Rolls the Oregon," principal source of revenue, and attendance at most performances fell below that of last year.

From an artistic, musical and dramatic standpoint, the pageant was an unqualified success, Mr. Hoffman said.

THIRD PARTY TALKED

NEBRASKA SENATOR DENIES PARTICIPATION IN MOVE

WASHINGTON, June 16.—(AP)—Senator Norris, republican, Nebraska, knows nothing about a move to organize a third party in the presidential campaign, he said here when his attention was called to a report that a meeting would be held in

Chicago, July 10, to discuss such a proposal.

The report was that a meeting would be held in Chicago by Norris, Senator Brookhart, republican, Iowa, and Senator Nye, republican, North Dakota, to discuss a third party. Norris said that he had not been advised that the meeting would be held and had not been asked to attend it.

"At the present time I am opposed to a third party entering the field," Norris said, "and know nothing about the report that a movement is on foot to start a third organization."

The Nebraskan who has been mentioned as a possible candidate for president on a third ticket said, however, that he is disappointed in the farm relief and power trust planks in the platform declaring that "there is nothing to them."

ARREST SQUATTERS

TWO MEN CHARGED WITH CONTEMPT OF COURT

PORTLAND, June 15.—(AP)—E. H. Best, 37, and Emory Davis, 54, squatters of the Fish Creek desert, arrested Thursday by Loren Cochran, deputy United States marshal, for the third time within nine months, were brought to Portland last night.

They first became involved with the government last September when they were charged by the forest service with trespass on government lands and with illegally cutting government timber.

At that time they were brought to Portland and agreed to move off the contested claims. They failed to do so and in November they were brought to Portland on a charge of contempt of court and sentenced to 20 days in jail. They finished serving their sentences on December 20 and returned to their cabins in the Umpqua national forest.

On this trip to Portland they will again be charged with contempt of court.

Owens Street Sewer Unit Plans Complete

The city council at its meeting Monday night will be asked to approve the plans and laterals of the Owens street drain which have been finished by Copper, Simpson & Cooper, the firm holding the contract on the city sewer reconstruction work. This unit will serve the entire Fairmount hill territory and is being constructed at a figure above \$10,000.

Next work of the company on this project will be a survey of the drainage needs in Southeast Salem.

At the present time, work is being pushed on the operations on Norway street, in the northern part of the city. Also some steps have been taken in the lateral work for the Spruce street unit. This will serve the land east of the Southern Pacific tracks, and south of the fairgrounds.

Children's Church School To be Held at Jason Lee

The Jason Lee Methodist church will hold a three weeks' school for children beginning Monday morning, June 18, with Edna Jennison, a Willamette graduate, in charge.

All children between the ages of five and eleven or those who are below the seventh grade in school, are welcome. The classes, to be held from 9 o'clock until noon each day, have not been planned on denominational lines.

Singing, story telling, supervised play, dramatization and handicraft will be included in the three weeks' program.

The papers continue to call Mussolini the Duce but he seems to be high, low, Jack and the same.—Atlanta Constitution.

Something For the Scalp BOSTON—"City hair tonic." The barber was puzzled until the customer in the chair explained that the "city hair tonic" he wanted on his hair was plain water.

ARKANSAS FLOODS MENACE FAMILIES

Levee Near Newport Goes Out With Result That Big Section Swept

NEWPORT, Ark., June 16.—(AP)—The Stevens levee, on the White river, 10 miles south of here, broke early last night, allowing flood waters from the swollen stream to sweep over a large area.

At least 200 families, in the path of the water, were fleeing to higher ground, and it was believed that all would reach safety. Several hundred families moved from the affected area in the last few days. Four towns were in the path of the water, Tupelo, Auvorne, Shortner and Weldon.

An hour after the levee broke engineers cut another levee a mile from the first to release "still" water which they hoped would do to check the sweep of water from Stevens break.

The water was rushing toward the Cache river tonight and three of the four villages were reported in danger of inundation. The water will force the Cache river to back up to near Cotton Plant, engineers said. About 300 men were on the levee who nit broke. Most of the equipment was abandoned and swept away.

The break in the Stevens levee, contrary to first hopes, will not relieve pressure against levees farther south, engineers said tonight. Most of the water will flow back into the White at or near Taylor bay, about four miles below Augusta.

A 59 foot section of the Stevens levee, which is approximately 17 miles long, gave way first. The rushing water rapidly ate away the banks, however, and the levee was still crumbling late tonight. A break occurred in the same levee last year.

Reports said much livestock was lost in the roaring waters which soon inundated homes and farm lands along the river.

MEMPHIS, Tenn., June 16.—(AP)—Reports received here last night by the Mississippi river commission indicated the situation along the flooding St. Francis river was becoming more acute. Two sections of the levee protecting the eastern bank of the St. Francis above Kennett, Mo., are in grave danger, Associate Engineer Blair A. Ross reported.

Our USED CARS are unusual in many ways.

In the first place, our stock is unusually complete, with a wide choice of makes and models in every price range.

Then, too, they are in unusually good condition. And we will always tell you truthfully all we know about the car's history and mechanical shape.

And finally, our used cars offer unusual value. Prices are amazingly low—and the word of a Buick dealer stands back of them.
