PAYNE, SCOUT HEAD, TO VISIT SCIO SITE

Will Make Final Arrangements for Annual Camp Beginning on July 7

Scout Executive L. A. Payne will spend the week end at the new Boy Scout camp 18 miles southwest of Scio. Considerable work has been done on it this spring, and his trip will be to determine what else must be done to put it in shape for the opening of the summer season on July 7.

Mr. Payne reports that 15 boys have already signed up for the first section of the camp. The camp is being sponsored by Salem and Corvallis jointly, and it is intended that there shall be 30 boys from each city in each section of the camping season.

The last honor court of the season was held Tuesday night in the Fraternal temple. The court was held as an open meeting of the Knights of Pythias, and was for the special benefit of the troop sponsored by that organization.

Thirty-eight boys were candidates for various tests in both first and second classes. One star scout received the insignia of his office.

Ralph Purvine, assistant scoutmaster of Troop 9 received an Eagle badge, which is the highest award a scout can receive.

Glen Niles, scoutmaster of Troop 1 received a 10 year veteran's badge in recognition of his services in that capacity. Mr. Niles has been scoutmaster of this troop longer than the term required to earn this badge, and is looking forward to receiving his 15-year award soon.

Judge Belt presided at this session of the honor court. This is the last regular court of the year, but special courts may be held during the summer camps seasons.

GRANGE SUPPORTING CHAMPOEG PROGRAM

July 22 is to be state Grange day at this Champeog Chautauqua. The Marion county Pomona grange voted to picnic there that day.

A report on the state grange meeting was given at the meeting yesterday by W. H. Stevens. P. H. Frederickson of Halsey discussed general grange problems, and John W. L. Smith of Rainier talked on "The State Grange and Education."

W. A. Jones presided at the meeting. Mr. and Mrs. E. A. Blake attended in the interest of juvenile work.

Convention City Settles Back Into Slower Existence After Meet

KANSAS CITY, (AP)—Limp hanging bunting, paper littered streets, and a great empty hall, forbidding in its dim exterior, are all that remain to remind Kansas City that a Republican standard-bearer was selected within its gates.

A few days ago ever-moving lines of visitors milled about the streets, bands played from dawn until far into the night. Now this city is settling back into its accustomed groove and the scene has shifted to Houston in Texas, a town which, like this one, came from political obscurity to capture a national convention.

There are some here who are amused at the steam-rolling tactics which brought the Republican to a swift conclusion, but in the years to come they will have the satisfaction of knowing that Kansas City is living in political annals as the place where Herbert Hoover became the nominee in 1928.

Until the polls close next November the citizenry will have much to relate. They can recall the stubborn fight in the resolutions committee over the farm plank. They can refer with first hand knowledge to such figures as Borah, Moses, Smoot, Watson,

Lowden and Mellon. Such satisfaction as may be squeezed from this brief moment of glory will be spread over many months.

Then, comparatively soon the momentum gathered at the Republican session will die out. Political atters will swing back into their familiar roadways and national issues will give way before such questions as whether the south side vote will outnumber that of the well organized north end.

"Tom" Pendergast and "Joe" Shannon, leaders in city and county Democracy for more than a decade, will move down stage again and take up the leading roles from which they were shunted while the Republicans busied themselves with going through the motions of choosing a nominee.

Already merchants and hotel men are at their adding machines, trying to figure whether all the confusion was momentarily worth while. Most of the citizens who go about their work day after day and live south of Union station are breathing sighs of relief. The task of reaching their jobs each day has been simplified by the absence of the milling mobs downtown and it is possible to get into a movie without standing in line for a half hour or so.

It is too soon yet for Kansas City to place the convention in its proper place in municipal history. It probably will be made much of later on, but now everyone is too tired, too fed up on conferences and caucuses. Four years from now Kansas City probably will be willing to go out for another national convention, but right now it probably is glad that Houston is to have the worry and thrills and shouting which will accompany the selection of a Democratic entry to vie with Hoover.

NASH presents a New and Finer Motor Car

New Twin Ignition Motor

New Salon Bodies

"The three new Nash Series, which are being introduced everywhere today, achieve the ambition of my manufacturing career.

"They represent an entirely new type of motor car, priced moderately, but offering you all the beauty and quality and performance heretofore exclusive to very expensive automobiles.

"To create such a car we had to develop an entirely new type of design and invest over \$2,500,000 in dies and machinery alone.

"Both the Salon bodies and the high compression motors which power these new models exemplify the most radically modern advancement in body craftsmanship and engineering.

"Naturally space precludes the full listing of all features but I do want to draw your attention to a number of the outstanding attractions such as:—

"—Twin ignition, high compression, Bohanalite aluminum alloy pistons

with Invar-struts, 7-bearing crankshaft with hollowed crankpins, Bijur centralized chassis lubrication, Houdaille and Lovejoy shock absorbers, Biflex-Nash bumpers and bumperettes, chrome plating over nickel for all exterior metal ware, double-drop frame, one-piece Salon fenders and longer wheelbase lengths.

"This new-type engineering of the '400' motors makes them by far the best performing cars I have ever built.

"I don't think anyone will ever want to use all the speed and power they deliver.

"Equipment is absolutely complete at the factory list price and you need buy no extras except a spare tire.

"If my judgment is worth anything you will find it well worth while today to examine this new automobile development with the greatest care."
