NEXT! Hear the Democrats Roar at Houston

Starting June 26th a real battle with fighters like SMITH, REED, and RITCHIE all out for the votes.

Without stepping out of their homes millions of people throughout the world enjoyed the Republican Convention recently held at Kansas City. This was accomplished by the RADIO. You too can hear the Democrats.

If impossible for a demonstration in your home, visit our shop in the Public Market and enjoy it. Plenty of room, chairs for all.

A phone call will bring a Radio.

Raspberries, Logans Here

Local raspberries and black caps both made their debut on the markets this week, with the former selling wholesale at 2.75 per crate and the black caps commanding \$3. Both are fine quality and are supplanting strawberries in demand.

Loganberries are also coming on, though not in commercial quantities as yet. The first of these were quoted at \$2.75 per crate.

No modern home is complete
without this quiet, economical, healthful refrigeration

GENERAL ELECTRIC Refrigerator

Foods full-flavored and luscious. Foods kept healthily cold and dry. Not a chance for bacteria to multiply—they flourish in moisture and warmth. The wise woman of today recognizes the importance of serving food that not only tastes good... but is thoroughly sound and fresh.

In the General Electric Refrigerator there is the scientifically correct temperature that makes food spoilage impossible—and generous shelf area for economical buying.

Important, to every woman, is the fact that this refrigerator is one that needs no oiling... that has no drain pipe or connection, no mechanism underneath. All its machinery is hermetically sealed in one steel casing, intact and tested in the factory... never touched after once it leaves. General Electric alone is responsible for the efficiency of these remarkable refrigerators. Come in and see the various models. Study them from every possible angle. Compare them with all others. Your interest will be welcome.

Write for a booklet which gives full descriptions.
