Where the wind bends down the willow  
Pulsing through it with a sigh;  
Where the sunset paints the curtain  
Of the darkening western sky;  
Where the breakers waste their fury  
In attack against the sands  
Broods a melancholy sadness  
That no human understands—

In the fields the brittle stubble  
Testifies to growth and grain;  
In the eyes of lonely watchers  
There is evidence of pain;  
In the gale that sweeps the summits  
There is proof of power; but oh,  
What this cosmic sorrow portends  
None of us can ever know.

But—the willow lifts at morning  
When the storm is spent and gone;  
And the watcher's eyes are brightened  
With the coming of the dawn;  
In the sea is much of music,  
Fields with fresher seed are sown,  
And the heart grows strangely stronger  
From the anguish it has known.

With the Esprit d'Amour line of toiletries carried by the Specialty Shop, 244 N. High they come back for more. Miss Swart is giving away copies of the little book "Smart Appearance" and free samples of the face powders for oily, dry, or flawless skins.

The Esprit d'Amour preparations are most popular during the summer when the protection and bleach creams and powders, and Perspiration Neutralizer are very necessary to the dainty woman.

Especially in demand at this time is the Perspiration Neutralizer. Perspiring skins and attendant odors need no longer be tolerated.

Extreme cleanliness and frequent bathing fail to relieve this most unpalatable offense. Esprit d'Amour Perspiration Neutralizer checks the over active sweat glands and eliminates every trace of odor. A trial will convince the most skeptical. It is a harmless, stainless, greaseless, hygienic, non-irritating liquid.

The Esprit d'Amour line is carried in Salem exclusively by the Specialty Shop, 244 N. High.

**"GREAT SIGHT!"**

"DISTANCE EYES" last longest—that's the way your eyesight was planned. Glasses that allow for perfect distance vision and still meet every requirement of "close-up" concentration are a question of optical mechanics. Our optometrists are experts in correcting every condition of defective vision. Postponing better sight is a foolish way of "looking at things."
