TREE BLOCKS ROAD

AUTO CRASH TAKES PLACE EARLY THIS MORNING

Traffic on the Pacific Highway south of Salem was held up for more than an hour early this morning when a large tree fell across the highway at about midnight and was struck by an automobile.

Although no injuries were reported as a result of the incident, the road was effectively blocked, and motorists headed both ways returning from late holiday celebrations were forced either to wait or to find long detours.

The accident took place about eight miles south of the Salem city limits. The name of the driver of the car which struck the tree could not be learned at an early hour this morning.

Fourteen Injured When S. P. Train Goes in Ditch

SAN FRANCISCO, July 4.—(AP)—Two trainmen and 12 passengers were injured today when the Southern Pacific's Shore Line limited train ran into an open ditch at Bay Shore station, derailing the engine and two cars. Bounding off the rails at high speed the engine tore up 300 feet of track, and then upset in a ditch. John Weir, engineer, and George Miller, fireman, were the most seriously injured.

Polish Flyers Purchase Boat For Sea Landing

PARIS, July 4.—(AP)—The Polish aviators, Captains Isidorovsky and Kapula, today brought a collapsible rubber boat for use in case the plane in which they will attempt to fly across the Atlantic should be forced down.

Weather reports still were unfavorable tonight and it was unlikely that the start of the east to west attempt would be made before Friday morning.

King Gives Monopoly On Lapis Lazuli Trade

IDAR, Germany, July 4.—(AP)—As first evidence of the much heralded trade developments with Afghanistan expected to result from King Amanullah's recent visit, a local firm announces that it has been granted by the Afghan monarch the monopoly for importing Afghan lapis lazuli.

It is claimed that nowhere in the world is lapis lazuli found of such good quality as in Afghanistan. Idar is a small town on the river Nahr, a tributary of the Rhine, and has a special industry connected with the setting and mounting of semi-precious stones.

Hollanders Get There Traveling On Bicycle

LEYDEN, Holland, July 4.—(AP)—Bicycles are more frequent in Holland than automobiles in

the United States. There is a "rijwiel," or bike, to every 2 and a half inhabitants. In a university town like Leyden, virtually every student, male or female, owns a wheel.

The great popularity of the bicycle is attributable to the fact that there are practically no hills in Holland. The uniformly level country offers every inducement to save car fare by pedaling one's way.

The importance of the bicycle is recognized by the authorities in that they provide separate "rijwielpaden" or bicycle roads running parallel to the automobile and horse-drawn vehicle roads. The pedestrian in Holland must take far greater care not to be run over by a bicycle than by an automobile, although the auto also is very popular.

Name Plate On Pew Held To Be Right Of Renters

PARIS, July 4.—(AP)—People who pay their pew rent promptly may still have their names on little brass plates to mark their seats. The council of state, the court of last resort in such matters has upheld the church and the pew renters against the city ordinance of Rouffiac, issued by the mayor three years ago.

It was the first time anyone had disputed the right of a churchgoer to get public credit for paying his pew rent. Therefore the case was taken to the courts and the recent decision now holds for all of France.

People have long forgotten what started the trouble, but it was a brick row while it lasted. Parishioners who didn't pay pew rent got into a heated controversy with those who did over the reservation of the brass-plated pews for those who paid for them. The mayor, hearing of the row, considered it a public matter, and ordered the priest to take off all the brass plates but the priest refused to comply.

Truckload of Fireworks Explodes Hurting Score

LAMAR, Mo., July 4.—(AP)—At least 25 persons were injured, 14 seriously tonight when a truck load of fireworks exploded prematurely in a crowd of 5,000 people assembled in the public square.

In a stampede that followed the blast many persons were trampled. Several children were injured.

The blast occurred when someone tossed a lighted firecracker under the truck just as the display was about to begin.

Junior Lightweight Title Will Be Decided Tonight

NEW YORK, July 4.—(AP)—In a 15 round bout postponed from today because of promoter Humbert Pugazy's objections to staging a show on a holiday, Ted Morgan of Seattle will defend his junior lightweight championship against Eddie "Cannonball" Martin of New York tomorrow at Ebbets field.

SAVINGS FOR YOU SALE FOR US! SILK
QUEEN OF FABRICS and the Fabric of Queens
Four thousands years ago there lived a queen who alone held the secret of silk. She didn't want anyone else to have the rich and lustrous fabric which clung to the body like a filament of flame. It was far too good for any, save her.
But her husband wanted the lovely cloth to decorate his throne. She told him the secret—the first but not the last man to discover how utterly and deeply women love the feeling of luxury, which only silk can give.
This original queen was Si-Ling Chi, favored wife of Huang-ti, emperor of China in its prehistoric days, 2640 years before the birth of Christ.
All through the ages, silk has kept its regal splendor. At first it was only used for rich altar cloths in the great cathedrals, then for kings, queens and finally it was used by the higher nobility.
Today—Silk—Richer, more lustrous and far more beautiful than ever before, retains its proud title even through the ages. It is still the queen of fabrics and the fabric of queens.
