

POPE COMMENDS DRESS REGULATION

Skirts of Irish Girls Must be Worn Three Inches Below Knees

LIMERICK, Ireland, July 12.—(AP).—Irish colleens are maintaining a demure silence following the publication of the regulations laid down by the Irish Modest Dress and Deportment Crusade recently instigated here and officially commended by the Pope. The regulations, they say, speak for themselves and need no further comment. Here they are: No dresses are to be worn which are: Less than four inches below the knee (measured when kneeling). Cut in a suggestive style or so.

loosely or low as to offend modesty; therefore not lower than the collar bone for church wear and not more than one inch below it at any time. Without sleeves sufficiently long to cover at least half the upper arm at any time, nor without sleeves to the wrist for church wear. Of transparent material unless a non-transparent slip, complying with the above regulations, be worn. Women must abstain from: Immodest postures. Loud talking or boisterous laughing in public and coarse or irreverent expressions. Alcoholic drink at dances or entertainments. Improper cinema shows, plays, etc. Anything opposed to modesty in what relates to sea-bathing, and they should show their disapproval of same.

City of Canton Installing 4000 American Telephones

CANTON, July 12.—(AP).—In rebuilding its telephone system, which marked the Communist rising of December, 1927, and its suppression, Canton has chosen the most modern American equipment. An automatic exchange with 4,000 telephones as a starter has been ordered from the United States, and preliminary work has begun under the direction of American-educated Chinese engineers.

The automatic exchange is expected to be merely the nucleus of a much larger system planned to serve this city of more than 1,000,000 inhabitants as funds become available. The initial phase of installation will cost \$325,000.

WRITER OFFERS TOAST TO YANKEE PRESIDENT

(Continued from page 2.) the old red mill, in Main Street, just opposite Pollard's general grocery store. I can still smell the croton oil which they used in that mill.

Half Scotch, I am, and obstinate, but father was all Scotch and therefore just twice as obstinate. Then there was the croton oil. I apologized. I wonder if the president would have apologized under similar circumstances. But then, he didn't get found out.

If I had personal acquaintance with the president, I should write to him and express the pious hope that he still is in the same healthy frame of mind as in B. R. A. days. I should also tell him that I used

to fish all around his old home farm in Plymouth. It was about the best fishing I ever saw. I don't believe anybody ever caught many fish there, but golly, a feller could just fish and fish and his heart to just fish and fish to his heart's content.
