

KING GEORGE CAN'T ALWAYS GET SEATS

Royal Family Orders and Pays for Theater Tickets in Ordinary Way

LONDON, July 19.—(AP)—Some of the most enthusiastic theatergoers in the United Kingdom are King George and Queen Mary and the royal family. The king and queen prefer "thrillers", the Prince of Wales likes musical shows. The king usually sits in the royal box at London theaters, but the royal box is merely a particular box designated for the king, and if he should apply for the seats after someone else has already reserved the box, he stands a fair chance of not seeing the show. In such a case the management usually asks the person holding the box to accept another, but if there are no other seats to be had, the king waits until another night. The king and queen invariably use a box and enter the theater by a private door. But the Prince of Wales has no such scruples. He enters with the rest of the audience, and rubs elbows with "the common herd" in the orchestra rows or "stalls" as they are called. The king and queen, as well as other members of the royal family, pay for their seats in the ordinary way, just as Mr. Tom, Dick and Harry.

So keen on the theater is the titular head of the empire and his family that they sometimes meet by accident in the same theater. This happened several days ago when the king and queen and the Duke and Duchess of York found themselves seeing the same play from different parts of the showhouse. The royal family is likewise fond of films. The Prince of Wales, the Duke of Gloucester, Prince George and the Duke and Duchess of York all went at various times to see one movie. They go incognito and pay in the usual way at the box-office. It is only seldom that the public recognizes them.

NEW YORK, July 19.—(AP)—The prices of Mexican bonds declined \$1 to \$12 in the bond market here today on selling influenced by news of the assassination of President-Elect Obregon. The assented 4 1/4's of 1927 sagged more than \$5 and other railway issues about \$1 each. In the government group Mexico 6's large assented of 1933 receded the larger decline, \$6, while the assented 1910-45 fours showed losses of more than \$2 each. CASTLE DECAYING FOR LACK OF COAL

HAM URG, Germany, July 19.—(AP)—Schloss Friedrichshof, the beautiful castle built by and for Empress Victoria, wife of Emperor Frederick and mother of the deposed former kaiser, is slowly decaying. Her daughter, the grand duchess of Hesse, who inherited this work of art, is unable to meet the cost of upkeep. The castle was built in accordance with the personal wishes of the empress, a daughter of Queen Victoria of England. She insisted upon taking stone from the quarries of the Taunus mountains, though warned that this stone contained saltpeter. The interior was furnished with costly art treasures.

In the course of time it developed that the walls could be prevented from "sweating out" salt-peter only if the rooms were kept quite warm. The grand duchess and her husband find that this takes more coal than they can afford, and have consequently taken up their residence in the adjacent smaller palace which formerly served as the home of the empress' master of ceremonies.

ITALIA SEARCH GOES ON

Forces Still at Work in Hope of Finding Lost Explorers

OSLO, Norway, July 19.—(AP)—Nine vessels and upwards of a score of aviators remain in the Spitzbergen area to search for the six possible survivors of the dirigible Italia and the six missing rescuers of the Roald Amundson party. Of the nine vessels four are Norwegian, three are French and two are Russian. Six of the ships were in the field today. The other three were refueling or otherwise renewing their stores in preparation for resuming their search.

Latest addition to the fleet is the vessel of the famous French explorer, Jean Baptiste Charcot. He sailed early today from Bergen on the Pourquoy Pas and will cooperate especially with the French cruiser Strassburg which is coaling at Longyear city. Charcot believes that the sea-plane in which Captain Rene Guilbaud of the French navy was piloting Amundson, Lieutenant Dietrichsen and three French navy men, has crashed somewhere in the Spitzbergen archipelago. He believes that the plane has been destroyed but that the six men aboard it are alive.

Another resolution pledged support to the national poultry council in its efforts to obtain an increase in tariff rates on all forms of imported eggs, now held to be ruinously low.
