Dow Lovell  
Jimmy Campbell  
Byron Lillie

## Special for Opening Day

Come to us  
for  
**DUNLOP  
TIRES**

**T**HERE are plenty of tires that we could sell. But Dunlops are tires that we can recommend. That isn't philanthropy—it's *good business*. You, for instance, will like us better, because of the *extra miles of comfort* that Dunlops give.

Here are a few facts that made us Dunlop-wise. The first pneumatic tire was built by John Dunlop in 1888. Dunlop Tires are famous on the roads of every continent as the "world's best tire." It takes nine great plants, all over the world, to supply the never-ceasing Dunlop demand. *Every 2 1/4 seconds* someone buys a Dunlop Tire for some kind of vehicle. You can't escape facts like these! Come to us for Dunlop Tires.

#### Count the Beans

Anyone driving into our station Saturday and Sunday will be given an opportunity to guess the number of beans in a jar. We are offering three prizes to the one guessing the nearest to the correct number of beans—\$25, \$15, \$5 Cash.—You need make no purchase in order to guess—Just make a call.
