Speculation as to what will be Eugene's strategy in seeking to upset the Senators' winning streak at Oxford Park this afternoon, was the principal topic of discussion among ball players and fans

At Eugene a week ago, Bill Baker had the best of the pitching duel with Johnny Beck, holding the Salem team to fewer hits, but Salem won through spectacular fielding and daring base running. Now, in view of Baker's phenomenal work in permitting the Senators only five hits, will Bager get the call again, or will it be "Curly" Fuller, southpaw strikeout wizard?

The Senators have faced only two left handed pitchers so far this season in league games, Bilderback of Wendling and Hubbel! of Cottage Grove, neither of whom was a remarkable pitcher but both gave the boys a lot of trouble; and they were practically helpless against the portsider that did the heaving for House of David, a

good chance that Fuller will be shoved in at the last moment.

This boy Fuller made a phenomenal record for Franklin high in Portland a couple of years ago. The Portland Beavers wanted to grab him, but Curly's father said no, maroid was to go to contego. fessional, shot sub-par golf where championships passed into the So he set some strikeout records, it was most needed today and the hands of the United States today. pitched for the University of Ore- Canadian open golf championship

ALONG BORDER LINE

New Drastic Regulations Go Into Effect To Halt Liquer Shipments

WASHINGTON, July 28-(AP) -A plan to shut off liquor shipments from Canada was placed in effect by the treasury today, consisting of new regulations dras-tically tightening rules governing the inspection of freight cars passing through Canada enroute between American points.

Assistant Secretary Seymour Lowden, in charge of law enforcement, said bootleggers had obtained a number of the blue seals used by customs agents to designate cars inspected before leaving American territory and that these seals had been applied to cars which, after being loaded with Canadian liquor, were attached to through trains.

He said it was believed that minor railroad empoyes had been bribed to assist both in obtaining the seals and also in the handling of the cars.

Under the new regulations, he belared each blue seal would be given a serial number and in addision would bear the name and number of the car to which it was applied. Thus, he explained that train when made up for entrance into Canada territory, would have all through freight cars stamped with consecutively numbered blue

Re added that each seal also would bear the time of the cars entrance into Canada and that if it should be delayed, customs agents would be on the alary as to the cause. Such delayed care would be dropped from the train men which they arrived and in quested
