## EARLY COMERS TO CONVENTION DIE IN TONIGHT

### Building and Loan and Savings and Loan Meeting Will Open Friday.

### Sessions to be Held at Chamber of Commerce; Banquet First Night

Arrangements will be completed today for the convention of the Oregon League of Building and Loan and Savings and Loan associations, for which Salem will be host Friday and Saturday. Early groups of delegates will be arriving tonight, with the greater number coming in Friday morning.

All sessions will be held at the Salem chamber of commerce auditorium, except the banquet, Friday evening, which will be at the Marion hotel.

Following is the program, as arranged to date. Some slight deviations may be necessary:

#### Friday Forenoon

Registration of delegates, 9 a. m. at chamber of commerce.

Convention called to order by President A. A. Lee at 10 a. m.

Addresses of welcome, Governor I. L. Patterson, Mayor T. A. Livesley.

Response for the league, John C. Kendall.

Invitation to eligible associations to affiliate, President Lee.

Presentation of credentials.

Reading of the minutes of the last meeting, J. R. Callahan, secretary.

Report on the national convention, President A. A. Lee.

Financial report of the league, J. R. Callahan, secretary-treasurer.

Appointment of resolutions committee.

Report of the credentials committee.

Roll call.

Luncheon at 12:30 p. m., discussion, J. R. Callahan, chairman.

Address by Robert M. Mount, manager of Portland Better Business Bureau.

#### Friday Afternoon

Golf tournament at 2 p. m., open to all registered delegates and visitors. Tour through the (Turn to page 2, please)

## MURDER CASE PUT INTO JURY'S HANDS

MISSOULA, Mont., Aug. 1.—(AP)—The fate of Mrs. Sylvania Thurston, charged with the murder of Doris Wentworth, 16-year-old milltown high school girl, probably will be in the hands of a jury by noon tomorrow. Instructions will be read to the jurors by Judge Asa L. Duncan in the morning and arguments of counsel for the state and defense will follow.

Testimony was ended suddenly this afternoon when County Attorney D. N. Mason announced that he had completed his rebuttal testimony and when E. C. Mulrony, counsel for the defense declared he will call no witnesses for sub-rebuttal.

Introduction of the blood-stained blouse worn by Doris Wentworth, when she was killed as evidence furnished the only impressive scene during the two sessions of court today.

"Do you know what this is?" Mr. Mason asked, holding the blood-stained and torn midly blouse toward Mrs. Thurston.

Cross-examination of the defendant by the County Attorney brought out little that she had not already testified to during her direct examination by her own counsel.

## Airplane Accident Fatal to Youthful Wife of Mail Pilot

BEND, Ore., Aug. 1.—(AP)—Mrs. Alice Buck, youthful wife of a Pasco, Wash., airplane mail pilot, died today as she was being brought to Bend after an accident on the Sherman county highway south of Grass Valley. Mrs. Buck's companion, Mrs. Anna Buckner, also the wife of an airplane pilot, is in a local hospital but not seriously injured.

The accident occurred when the machine Mrs. Buck was driving skidded on gravel and rolled over. Mrs. Buckner was thrown clear but the driver was caught under the machine. She never regained consciousness after the accident.

## Woodburn Man Ill, Despondent Takes Own Life

WOODBURN, Aug. 1.—(Special)—Despondent due to protracted ill health, Joseph Huggen, aged about 65, took his own life here this afternoon at his home on Hardcastle avenue.

After his wife had left the house to go downtown, Huggen took his gopher gun, went out in the woods and shot himself through the heart. Death was probably instantaneous. Mrs. Huggen found the body when she returned home.

Although Mr. and Mrs. Huggen have been residents here for many years, none of their neighbors knew of any relatives.

## COMMISSIONERS GO FOR RAIL HEARING

Members of the public service commission left here last night for Portland where they will attend the hearing of the application for the construction of a cross-state railroad from Odell to Crane.

The hearing will open today and will be conducted by representatives of the interstate commerce commission. It will require three weeks to complete the case, members of the public service commission said.

Virtually every city and town of importance in Western and Central Oregon will intervene in the hearing. The public service commission of Idaho also will be represented.

The application for the proposed cross-state railroad was filed with the interstate commerce commission four years ago. The line is a part of the general railroad development program now being promoted in Central Oregon.

## Rainfall in July Reaches .95 Inch; Mercury Goes Up

High temperatures and little precipitation during July is indicated in a summary of the month's weather compiled yesterday by Paul Pemberton, local weather observer. Rainfall during the month amounted to only .95 of an inch, with the mercury rising to a maximum of 103 degrees on Monday, July 23.

Although there have been higher temperatures known here the heat wave which continued from July 21 to 26, inclusive, is regarded as a record for sustained hot weather in this section. Usually an extremely hot day here is followed by cooler weather within a short time, and in many cases by showers.

There has been no rain here since July 5. On that day there was a light shower amounting to .03 of an inch. Still lighter showers fell on the second and third of July.

During the month the level of the Willamette river fell steadily from minus 1.2 to minus 2.3.

## Canterbury Archbishop Succeeds in Defeating Bill in House of Lords

LONDON, Aug. 1.—(AP)—The Archbishop of Canterbury today making his last appearance in the House of Lords as primate of the church of England before his impending retirement, obtained the defeat of a bill which the church had opposed but which in some manner had slipped through the commons and reached its third reading in the upper house.

The bill would have amended the marriage laws to permit marriage between uncles and aunts and their nephews and nieces. In the last few years many ineffectual attempts had been made to pass such a measure and recently it was put through a tired House of Commons late in the night. Subsequently it passed two readings in the Lords, where the divisions, however, were very close.

The vote tonight was 26 against and 25 for the bill.

## British Seaplane on Way Azores to Newfoundland Gives World no Message

NEW YORK, Aug. 1.—(AP)—Although the Spanish plane Numanca was known tonight to be down less than 100 miles from its starting point, Cadix, Spain, nothing had been heard from the Dornier-Napier seaplane, of Captain Frank Courtney, which left Horta, Azores, at 9:55 p. m., (G. M. T.) for Newfoundland.

The Courtney plane had a wireless operator and radio apparatus aboard but despite this, its silence has caused no apprehension. It has a cruising speed of approximately 180 miles an hour, which means it should be covered en route to Newfoundland might get it at that island as early as 9 a. m., eastern standard time Thursday.

Head winds which it is quite likely to meet, however, may force a further flying en route, making its four hours or more, making its probable arrivals sometime after noon.

There was still some speculation late tonight as to what had caused the failure of the Numanca's flight but it was believed that motor trouble had forced it down off Faro, Portugal. Madrid dispatches said that the plane had arrived at Huelva on the Spanish coast about half way between Faro and Cadix, but it was not indicated whether it had arrived under its own power or had been towed. All on board were said to be safe.

HUELVA, Spain, Aug. 1.—(AP)—Major Ramon Franco expects to renew his trans-Atlantic flight in his Daniel-Wall seaplane with this point as a starting place sometime Thursday or Friday.

The plane, the Numanca, arrived at Huelva on the Spanish coast about half way between Faro and Cadix, but it was not indicated whether it had arrived under its own power or had been towed. All on board were said to be safe.

## VACATION OVER HOOVER MAKES HIS WAY SOUTH

Republican Nominee Will Arrive in San Francisco This Morning

Trip to Palo Alto Home to Be Made by Motor; Hard Work Resumed

SHASTA SPRINGS, Cal., Aug. 1.—(AP)—Ending his five days in the mountains and forests of northern California and southern Oregon, Herbert Hoover started back to his Stanford university home tonight to pick up again the reins of his campaign as the republican presidential candidate.

Most of the last day of the trip was spent by Hoover on Medicine Lake where he cast for mountain trout. Leaving here soon after sunup in the company of his son, Alan, and his close friend, T. T. C. Gregory, of San Francisco, the nominee circled the base of Mt. Shasta and drove eastward 37 miles, where he set out in a boat with a guide for his fourth fishing venture.

Rejoining his party here late in the day, the nominee had dinner before motoring to Dunsmuir, five miles away, to board a train for San Francisco. Running as a section of the Oregonian on the Southern Pacific line, the train was due at San Francisco at 9:30 a. m. tomorrow. From that city the party will motor to Stanford university.

Since leaving home last Saturday morning on what one member of the party has described as a hop, skip and jump vacation, the candidate has covered nearly 1000 miles by motor through the coast Cascades and Siakiyou mountain ranges and has stopped overnight at four different places, Bull Flat, in the Giant Redwoods of the California coast region; Big Creek, Lodge, near Medford, Ore.; Browns Camp on the Klamath river, near Hornbrook, Calif., and Shasta Springs.

Improvements Noted For all the speed and quick changes in base that have attended the excursion, Mr. Hoover has benefitted materially from it so far as his physical condition is concerned. (Turn to page 2, please)

## WIFE ASKS FORCED SEPARATION ENDURE

After having been allowed to live with her husband for a total of only four weeks, those four weeks being scattered through the summer of 1928, Lida Childs has become tired of awaiting further marital relations with Donovan Childs and wants a divorce. Such is the burden of her divorce complaint filed in circuit court here yesterday.

She also asks to be given her maiden name, Lida Anderson. The two people were married at Albany on June 7, 1926, she asserts. Immediately following the ceremony they went on a two weeks honeymoon with her newly acquired in-laws at Lebanon. At the end of that time, she says, he requested her to return home to her own parents at Silverton, which she did.

After remaining at Silverton until July 25 she again went to live with her husband at Condon. Here they lived in the same house with his employers.

This second honeymoon lasted for only one week, however, after which she rejoined her parents at his request.

The fourth and last week spent with her husband occurred during the following month. On August 19 she again went to live with her husband, but this time he had returned to his parents at Lebanon. At the conclusion of this week, she says, he informed her that he could not support her and she has never lived with him since.

## His Own Idea

Jose de Leon Toral, slayer of General Alvaro Obregon. He still stubbornly maintains that he alone plotted the assassination.

## Seek Evidence Someone Else In Toral Plot

MEXICO CITY, Aug. 1.—(AP)—Government prosecuting officers began the study tonight of the evidence presented in the preliminary trial of Jose de Leon Toral, assassin of President-elect Obregon, to see if indictments of others are to be asked in connection with the assassination and when Toral's formal trial will be called.

Throughout today Toral remained firm in his assertion that no one else knew of his intention to kill General Obregon, finally, although the investigators have not yet abandoned the theory that others were concerned the preliminary trial was adjourned and Toral taken back to his cell in the San Angel jail.

The court today appointed a lawyer to represent Toral's father, mother, his wife, the mother Superior Concepcion Acebedo de la Lata and relatives of the missing Manuel Trejo all of whom are being held, though with no definite charges against them.

The mother superior who has denied repeatedly that she "indirectly" influenced Toral in his act, appeared in court today wearing a dark 'airly stylish dress with a gray hat pulled over her short hair which was brushed back to give a bobbed effect.

## "None" Declared Asset of Estate Of Ellen M. Nunn

The name Nunn turned out to be an appropriate one when the word "none" was written as the sum total of Ellen M. Nunn's assets.

The report of inventory and appraisal was filed in the matter of her estate in probate court yesterday. Sven Svenson, administrator of the estate, filed the report. There were a few assets to her credit when she died, he explained, but it has been necessary to use these for legitimate expenses of the estate.

The report is accompanied by the usual administrator's sworn statement.

## Pilot of Italia Put Off Base Ship, Taken By Train to Sweden

NARVIK, Norway, August 1.—(AP)—Captain Alberto Mariani, pilot of the Italia, was removed from the base ship Citta di Milano and is being taken by railway to Sweden where he will be placed in care of a specialist.

The Citta di Milano expects to sail immediately for Spitzbergen with a number of new Italian planes on board with which a search will be conducted for the Lathan seaplane of Roald Amundsen and Rene Guilbaud.

## Local Radio Fans May Hear Address

C. O. Best and M. O. Field, local representatives of Watchtower radio, eastern broadcasting concern, announce that their company will broadcast the address of Judge J. F. Rutherford, president of the International Bible students association, before the association's 1928 international convention, Sunday morning, August 5, from 9:30 to 11 o'clock, eastern time. While the speech will go over an international network, station KEX, Portland, will be the only one from which local radio listeners will get it.

## 61 Mile Wind Lowers Temperature to 32

MEDFORD, Ore., Aug. 1.—(AP)—The Crater National forest lookout telephoned from his station near the top of Mount McLoughlin, 9,700 feet high, that a 61-mile gale which blew across the mountain last night lowered the temperature to 32 degrees at 7:30 p. m. Tuesday evening, and to 31 degrees at seven this morning.

## SAILOR'S DEATH PROBE PLANNED BY U. S. FORCES

Federal Men Will Be Here Soon To Investigate Fatal Auto Accident

James Sheridan Here on Furlough at Time; Came Home By Airplane

Renewed investigation into the death of James Sheridan, killed early Sunday morning in a collision between an automobile he was driving and a wood truck operated by Ralph Wolfe of Monitor, will be made upon the arrival of federal investigators here within a few days, it was learned yesterday.

The government is interested in the case for the reason that Sheridan was an enlisted man in the United States navy. He was at home on furlough at the time of the fatal accident.

Came By Airplane  
Strangely enough Sheridan found travel upon the ground more dangerous than air travel, for he had made the trip to Salem by plane just a few days before. The vessel on which he was assigned was soon to leave on an extended cruise, and in order that he might visit longer with his parents, Mr. and Mrs. William P. Sheridan who live on the Macleay road, he had crossed from Bremerton to Seattle and there traveled by air to Portland.

Blame Not Fixed  
While the federal investigation will be made, it does not presuppose that the facts of the fatal accident were other than those brought out at the coroner's inquest here Monday night, when the jury failed to fix definitely the responsibility. The officers will merely make the usual investigation required after the accidental death of a man who is actively engaged in a business.

NEW BEDFORD, Mass., Aug. 1.—(AP)—Release under bonds from the house of correction here a majority of 240 strike pickets convicted of rioting, was the chief event of interest to participants in the textile strike today.

## STRIKE PICKETS GET OUT OF CELLS AGAIN

Employment of an assistant parole officer at the state training school for boys near Woodburn, was authorized by the state board of control at a meeting here Wednesday. There are now between 250 and 300 boys on parole from the institution.

The board authorized the superintendent of the state school for the deaf to keep open house during the 1929 convention of the Oregon Association for the Deaf. The convention will be held here in June.

## Boys' School to Get New Assistant Parole Officer, Board Rules

NEW YORK, Aug. 1.—(AP)—The American Museum of natural history was informed today that Hannibal Hamlin, 24 year old leader of the South Sea expedition had penetrated hitherto unexplored country on the island of Bougainville.

The message said he also had climbed to the summit of the active volcano Bali, whose crater rim never before had been reached by a white man.

Hamlin, a graduate of Yale, is a great grandson of Hannibal Hamlin vice-president during Lincoln's first administration.

## Kellogg to Leave New York For Paris 18th Of This Month, Word

WASHINGTON, Aug. 1.—(AP)—Secretary Kellogg will go to Paris to sign the anti-war treaty, leaving New York Saturday, August 18. The ceremony is to take place August 27 or 28.

It is Mr. Kellogg's intention to refrain from formal discussion of any international questions and his plans call for his return on the first available vessel leaving after the treaty has been signed. Tentative arrangements have been made for him to return on the evlathan from Cherbourg on September 4.

## Johnny Risko Matched With Roberti Aug. 15

NEW YORK, Aug. 1.—(AP)—Johnny Risko, the Cleveland ex-fighter, who is one of the leading contenders for the heavy-weight boxing championship vacated by Gene Tunney, will meet Roberto Roberti of Italy August 15 at Ebbetts field, Brooklyn. It was announced today by Humbert J. Frazzari who will promote the bout. The scrap is scheduled for 10 rounds.

## Man Suicides Rather Than Permit Capture

VERNAL, Utah, Aug. 1.—(AP)—Harry Amundson shot and fatally wounded himself here today rather than submit to arrest of officers on charges of robbing a Hayden, Colo., concern of approximately \$500 worth of merchandise.

## PERRY HAS CAR AGAIN

Finds All But One Windshield Bracket and License ROLLS PROUDLY HOME

On Sunday, parts of a light roadster were lying scattered all over several acres of Polk county hill country.

Wednesday, just before noon, an automobile, complete except for the bracket on one side of the windshield and the license plates, sailed proudly down Commercial street—not under its own power, to be sure, but it came in flying nevertheless.

This was the work of Vernon Perry, who owned the car which was stolen May 31 at Corvallis and Ray Bonesteel, connected with a local garage. Some work toward assembling the dismembered car had been done by Russell Hills, who discovered the scattered parts Sunday, but the rest was done by the owner and his friend Bonesteel.

The latest discovery was what appeared to be a depression filled in and covered over with rock, near the scene of the strange discovery. The officers were planning to dig into this heap of rock and dirt in the hope that some solution of the mystery or new clue might be found.

At the same time trace was found of a family named McKern which formerly lived at Albany and which included a little girl named Betty Leon, the name that was found on the toy tambourine, the only clue found in the first day of investigation. The present location of this family is being traced.

While investigating the case, the officers have noticed several automobile parties driving up, apparently intending to stop there for some reason, but quickly moving on when they saw the officers. This place at the summit of the Oak Grove road has been reported to be the transferring point for a considerable amount of liquor.

## PASTEURIZE MILK AT INSTITUTIONS

All state institutions in Salem and vicinity will use pasteurized milk, it was decided at a meeting of superintendents of all of these institutions here Wednesday with the board of control. This step was deemed advisable for the reason that five cases of malta fever have been discovered at the state tuberculosis hospital.

Reports submitted to the board of control indicated that the malta fever was caused by patients at the tuberculosis hospital drinking milk which had not been pasteurized. The disease originates with cows afflicted with contagious abortion.

Dr. R. E. Lee Steiner, superintendent of the Oregon state hospital, urged immediate action by the board of control in connection with the malta fever epidemic. He suggested that all cattle owned by the state which have contagious abortion be destroyed.

Dr. Steiner said the hospital had been using pasteurized milk for several months. The outbreak of malta fever had developed among the patients.

Heads of state institutions owning their own herds were authorized to do their own pasteurizing. Institutions which have no herds were instructed to purchase milk from dairies which pasteurize their milk.

Reports received by the board indicated that contagious abortion is prevalent in many sections of the state.

Five cases of malta fever at the state tuberculosis hospital have been reported to the state board of health.

## Strike Pickets Get Out of Cells Again

NEW BEDFORD, Mass., Aug. 1.—(AP)—Release under bonds from the house of correction here a majority of 240 strike pickets convicted of rioting, was the chief event of interest to participants in the textile strike today.

Examination of sureties was started this afternoon by Walter R. Mitchell, clerk of third district court and his staff. Hours before the pickets were rioting, the chief event of interest to participants in the textile strike today.

The report of inventory and appraisal was filed in the matter of her estate in probate court yesterday. Sven Svenson, administrator of the estate, filed the report. There were a few assets to her credit when she died, he explained, but it has been necessary to use these for legitimate expenses of the estate.

The report is accompanied by the usual administrator's sworn statement.

## American Explorers Penetrate Hitherto Unreached Sections

NEW YORK, Aug. 1.—(AP)—The American Museum of natural history was informed today that Hannibal Hamlin, 24 year old leader of the South Sea expedition had penetrated hitherto unexplored country on the island of Bougainville.

The message said he also had climbed to the summit of the active volcano Bali, whose crater rim never before had been reached by a white man.

Hamlin, a graduate of Yale, is a great grandson of Hannibal Hamlin vice-president during Lincoln's first administration.

## Olympic Schedule for Today is Made Public

AMSTERDAM, Aug. 1.—(AP)—The schedule for tomorrow the fifth day of the Olympic track and field championships, includes:

Four hundred meter run first and second trials.  
Javelin throw final.  
Hop, skip and jump final.  
Fifteen hundred meter run final.  
Eight hundred meter run (women) final.

## Canneries Are Busy Again Though Slack Times Here Supposedly; Ship Pears

There was a little period of quiet in the canneries for several days, after the winding up of the strawberry, raspberry and loganberry harvest. But it was not to be for long; not as long as was expected.

The Oregon Packing company, in its 13th street plant, is getting under way with bean canning. Not a great supply coming as yet, but it will increase in volume daily. The 80 by 100-foot addition to that plant was expected to be finished by pear canning time, about the 16th.

But it will not be, for shipments of pears are now beginning to roll in car lots from southern Oregon and eastern Washington, and they will be arriving fast by the end of the week, and ready for canning a few days thereafter. There will be a big canned

## MAJOR BRIDGE PROJECTS NOW MOVE RAPIDLY

To Date \$77,219 Contracted Out of \$350,000 Bond Issue of Year Ago

Engineers Now Drawing Plans for 340 Foot South Liberty Structure

Events are moving rapidly in the consummation of major projects in the city's bridge building program, with three developments occupying the center of attention this week.

One of these is the opening of bids on the North High street bridge, scheduled for next Monday night's council meeting, and another is the sale of the second block of \$100,000 worth of bond bonds, from the issue of \$350,000 voted over a year ago. This also will take place Monday evening at the council chamber.

\$77,219 Contracted  
The \$350,000 was voted for carrying out a project which consisted of 17 bridges. To date, three of them have been built and another contracted, at contract costs totaling \$77,219.

The South Commercial street bridge job went at \$43,715. The South Winter project at \$16,696. The 17th street span was to cost \$8815, and the East State street bridge \$8993. Actually, the costs vary a little from these figures, as slight changes were made in the specifications or extra work found necessary.

Start New Plans  
To this total must be added the engineering cost of around \$900 a month since October, when the bridge engineering department was opened, and the state bridge department will make a charge (Turn to page 2, please)

## WHOLE FAMILY SHOT BY YOUNG DENTIST

ROSELLE, N. J., Aug. 1.—(AP)—Dr. Arthur F. Woolsey, prominent young dentist, today shot and killed his wife and two little children with a revolver as they slept and some six hours later telephoned police headquarters and asked for Chief Burt Avery.

"I have something for the police," he said. Avery hurried to Woolsey's home with two patrolmen and was met at the door by the dentist.

"I killed my wife and two children," he announced quietly. "I have you got a cigar, chief?"

Doctor Woolsey's first statement after he was taken to headquarters was that "domestic troubles," motivated his act. This later was changed to "financial troubles," his explanations were vague. Neighbors said the family always appeared to be happy, but understood that Woolsey recently had had financial difficulties.

The victims were Mrs. Marguerite W. Woolsey, Field Woolsey, aged 6, and Mary Marguerite, 3.

Dr. Walter Woolsey at the Roselle police station said he believed his son's mind must have been affected.

Woolsey is 35 years old.

## County Gets \$26,542 Common School Fund; Marion Ranks Second

Marion county receives \$26,542.42 from the common school fund of the state of Oregon, according to the apportionment announced Wednesday. This year's apportionment, made under date of August 1, was on a per capita basis of \$1.57. This county ranked second, having 16,908 pupils. There was a total of \$406,160.57 distributed, based on a school population of 258,701. Last year's apportionment was \$400,739.04, with 256,834 pupils participating.

Reports are that Portland and Coos Bay posts are Salem's closest rivals for this honor, although Eugene is always in the running. Bend has been among the first for several years past, and Cottage Grove is coming to the front. However, in view of its past record, the Salem corps is the favorite.

## New Political Party To Be Organized In Japan, Announcement

TOKYO, Aug. 1.—(AP)—A bombshell was thrown into Japanese politics today when Takejira Tokonami, former minister of home affairs, resigned his advisoryship of the Minsai-To, or opposition party, and declared his intention of forming a new political organization.

The manifesto issued with this announcement said that the four big problems confronting Japan could not be solved under the existing political situation, which was described as unstable and due to the too evenly balanced power between Minsai-To and Seiyu-Kai, the government party.

## Game Warden Shoots Pestiferous Bull Elk

MARSHFIELD, Ore., Aug. 1.—(AP)—A bull elk that has been pestering farmers of the Coquille valley for a long time was shot yesterday by Game Warden A. M. Fish. The warden said he hoped another elk which has ranged with the one killed would reject the band back in the hills. The bothersome bull elk was shot near Myrtle Point where for several years he has annoyed ranchers.

## Wife Asks Forced Separation Endure

After having been allowed to live with her husband for a total of only four weeks, those four weeks being scattered through the summer of 1928, Lida Childs has become tired of awaiting further marital relations with Donovan Childs and wants a divorce. Such is the burden of her divorce complaint filed in circuit court here yesterday.

She also asks to be given her maiden name, Lida Anderson. The two people were married at Albany on June 7, 1926, she asserts. Immediately following the ceremony they went on a two weeks honeymoon with her newly acquired in-laws at Lebanon. At the end of that time, she says, he requested her to return home to her own parents at Silverton, which she did.
