

Tilden Taunts Tennis Committee by Entering Tournament

STAR DECLINES TO AWAIT WORD

Yankee Player Continues to Engage in Amateur Net Activities

RYE, N. Y., Aug. 14.—(AP)—William T. Tilden, the king of the American tennis courts and the center of American tennis controversy, made his first appearance since his return from Europe in the eastern turf court championships today, scoring two easy victories in the singles, and another pair in the doubles. The appearance of big Bill drew the largest crowd to the Westchester-Biltmore club that has ever turned out for the early rounds of the eastern championships.

The Davis cup captain conquered Gilbert Hill of East Orange, N. J., in his opening match by the one sided score of 6-1, then downed C. R. Watkins, of White Plains, N. Y., 6-2, 6-1, to enter the quarter final round. Later in the afternoon, Tilden paired with Francis Hunter, his partner in the Davis cup matches, swamped Henry Moore and Valentine Gress of New Rochelle, N. Y., 6-1, 6-1. They then ended the day with a victory over Eugene McCauliff and Ernest Kuhn of Yonkers, N. Y., 6-2, 6-1.

Tilden, whose status as an amateur is to be decided Aug. 24, gave a display of his best game today, appearing merely to toy with his opponents. Hill, who is 35th in the national ranking, could accomplish little against the tall Philadelphia's stellar ace, while Watkins could do no better.

During the afternoon, Tilden spent some time in conference with Samuel Hardy, acting manager of the East-West matches, to be played at Forest Hills Friday and Saturday. It was reported to play that Hunter had refused to play on the eastern team unless Tilden also was invited to participate. Regarding a report that he was considering a contract to appear in vaudeville, Tilden merely commented that it was "very interesting."

GRIDIRON WORK TAKING SHAPE

Willamette Coaching Staff Personnel Named, Says Keene

Willamette university's football coaching staff will include the same personnel as last year when candidates report to be outfitted September 14 and start preliminary training the following day. Head Coach Keene announced Tuesday.

Joe Kasberger will be back on the job to put pep into the backfield men and "Red" Denman will have charge of the new candidates and the work in fundamentals as he did last year.

Preparations for the training season have been started, with a man at work disc harrowing the field to cut the weeds and soften up the gridiron in preparation for grading and rolling.

A grader will be put at work on building a higher knoll in the middle of the field and cutting down the sides to afford better drainage.

A few additional drain tile will be put in to supplement those installed last year and the year before, and the prospect is that when the November rains fall there won't be so many lakes on the north side of the field.

New Rock Seen Protruding Up Out of Pacific

SAN PEDRO, Aug. 14.—(AP)—A radio message received here tonight from the steamer Radnor, bound for this port from Honolulu warned ships traveling the great circle route to the Hawaiian islands that an uncharted rock, protruding about 24 feet above the waters of the Pacific had been seen by the crew of the vessel.

The message, which immediately was rebroadcast to all coastwise and trans-Pacific shipping, gave the position of the rock as latitude 22.13 north and longitude 156.26 west, approximately 100 miles west of this port.

The message was signed by Captain Nicholson of the Radnor.

On His Way to America

After being the big shot in the recent Davis Cup matches between the French and American teams, Henri Cochet decided further tennis laurels were his for the seeking and sailed for this continent. This photograph of him was taken during the recent international matches, and shows him making a wonderful get on the court.

ATHLETIC FIELD'S FENCE COMPLETED

Construction of 2600 feet of fence around the high school athletic field on 14th street has been completed after more than two weeks work. W. L. Heiser of the Northwest Fence company, Portland, successful bidders, had charge of the work.

The fence, the first to enclose this field, is seven feet high, with six-foot woven wire the main body. Three strands of barbed wire, on the arms extending out from the pipe railing along the fence posts, give the extra foot. The main entrance to the field is from 14th street, where an eight or ten foot panel and a wide double gate will handle the traffic for the big games. There is a four foot gate on the south, and one on the west from Parrish school. Two larger gates, a 12-foot on the north and a 14-foot on the south, and an 18-foot panel on the east end furnish other entrances to the field. The east end panel is designed particularly for the use of shows that may want to bring considerable apparatus on the grounds.

Sport Briefs

Fred Heimach, now with the Yankees, has seen previous service in the major leagues with the Athletics and the Red Sox.

Texas officials expect Ed Bealar, quarterback who was injured most of last season, to be one of the big factors in a winning 11 this fall.

The Yankees had to play too many double-headers during July. That is the explanation offered by experts for the loss of so many games late in July and early August.

Dartmouth had a very good half back in Al Marsters, a sophomore, last year, and thinks he will be one of the sensations of the football season this year.

After a very careful check, recorder O'Goofy reports there are 11 heavyweight champion and all the claims are not yet in.

Everybody who has ever worn gloves and who weighs enough is staking a claim for Gene's title because there is so much at stake.

Knute Hansen is among those present in the title-claiming contest. As far as what it means is concerned, it might as well be Knute Rockne.

O'Goofy hears that Paddy Mullins may file a claim if the experts make Dempsey champion. He's the guy who managed Wills and said he'd lick Dempsey—and got away with it. Well, why not?

The more the merrier, says Tex Rickard. But as an old mining expert, he says there ain't much pay dirt in so far.

Bill Tilden says the American tennis players learned their lesson when they lost to France. And yet they went to the bottom of the class.

Too much food is blamed for the poor showing of the American athletes in the Olympic games. Old stuff—stuff is right.

Woman Trying For New Mark In Long Swim

COLTON, Cal., Aug. 14.—(AP)—Mrs. Lee Fourrier, 36-year-old mother, tonight still paddled at a leisurely gait in the outdoor Colton plunge in her attempt to recapture the world's endurance swimming championship for women. Mrs. Fourrier hopes to swim for 60 hours. She entered the plunge at 6 o'clock this morning.

Mrs. Fourrier, who is a swimming instructor, was being paced by two of her pupils, Earl Smith, 19, and Muriel Gordon, 15, who seek to swim for 48 and 24 hours, respectively; the boy in an effort to capture the men's endurance record. Mrs. Fourrier held the continuous swimming record for women until Mrs. Myrtle Huddleston of Mattoon, Ill., eclipsed it by paddling for 54 hours and 23 minutes, three weeks ago in New York.

SALEM'S TEACHERS GOOD PHYSICALLY

Student health and scholastic standing have come in for considerable discussion from a correlative standpoint, but Superintendent George W. Hug has compiled a set of figures which offer some diversion on the health problem and reveal a few phases of another aspect of student scholastic standing, teacher-health.

Since the spring of 1927 the Salem school has required teachers to have a physical examination as a part of the contract to teach here, and from the results of these examinations Superintendent Hug has found a number of facts which he last night presented to the city school board.

Along with the examinations, the examining physician also estimates the ability of the teacher to carry through the school year and recommends whether she is physically able to teach.

"The results of the examinations were gratifying, in that practically all teachers in the Salem schools were in good health," the report stated. Of the 190 teachers, 123 were rated excellent in excellent health, or a total of 64.7 per cent. Six teachers had good health, and six were classed as fair.

Of the three school divisions, the senior high teachers had the best health, with 40 out of 53 in excellent health, 11 in good and but two with fair health. The grades rated second, with 51 or 63.2 per cent of these teachers enjoying excellent health. Thirty-two of the 60 junior high teachers, or a little more than half, rated excellent, the examinations showed.

Airplane Crash Kills Two Men "Stunt" Fatal

TILTONVILLE, Ohio, Aug. 14.—(AP)—Two persons, the pilot and a passenger, were drowned near here tonight when a sight-seeing airplane plunged into the Ohio river. Three other occupants of the ship escaped, two by swimming to shore.

August Hauche, 35, of Scott Field, Yorkville, Ohio, pilot, and George Griffin, 34, of Kirkwood, Ohio, were those who met death.

Joseph Duncan of Martin's Ferry, one of the passengers who escaped, said Hauche was "stunt" when one wing of the plane struck the water and broke off.

Terrific Blast After Dispute

HAMMOND, Ind., Aug. 14.—(AP)—An explosion, believed to be of incendiary origin, today wrecked the plant of the Indiana Sanitary Pottery company and caused damage estimated at \$250,000. Police were unable to enter the building because of fire that broke out but it is believed that no one was in the building. The plant was closed on Saturday because of a labor dispute between its operators and employees and police are investigating the theory that the plant was blown up by plotters.
