

ENROLLMENT IS TO BE HEAVIER

Woodburn Schools Open September 17; Five New Teachers Elected

WOODBURN, Or., Sept. 4.—(Special)—Pre-registrations for the three upper classes indicates that the Woodburn high school will have a larger enrollment at the opening of the school year September 17, than it had at the close of school last spring. Freshman pre-registration has not been completed.

The grade school enrollment will also surpass that of last year, according to an estimate made by Superintendent V. D. Bain, based on the fact that a number of new residences have been built here this summer and are being occupied as soon as completed.

More in High School
Woodburn is one of the unusual communities which has a larger high school than grade school, this being explained by the fact that while it is not a union high school, it has a number of students from the surrounding territory.

The high school last spring had 290 students and 13 teachers; the grade school 250 pupils and ten teachers.

Five New Teachers
Five new instructors have been employed for the coming year to take the places of teachers who resigned. Misses Mabel Ballard and Fern Wadsworth have signed contracts as seventh grade teachers. Miss Ballard, whose home is at Vancouver, Wash., taught at Scotts Mills last year. Miss Wadsworth, a resident of Gervais, is a recent graduate of the normal school at Monmouth.

At the Theaters

In an entirely new program, Eddie Peabody, original banjo boy, thrilled and thrilled again the full house at the Elsinore theater last night. If anyone left the Elsinore last night lacking "pep," it was certainly not the fault of Eddie Peabody.

The heavy classic, "Poet and Peasant Overture" which he gave as a banjo solo, was marvelous and displayed the supreme skill with which Mr. Peabody handles the banjo.

Supporting Mr. Peabody was Jimmy Maisel, another fine banjoist and the duet from "William Tell" which these two artists gave was certainly a musical pleasure to anyone.

A surprising group on the program last night was the appearance of three Salem boys, "Brock" Hendrick, Al Adolph, and Bob Alexander, who Eddie named the "Speed Boys." These boys had asked to play before Mr. Peabody the first day of his Salem appearance and so pleased was he with their talent that he placed them last night.

Bob Ziegler at the piano and Alf Down the clever dancer also supported Eddie in last night's Fauchon, and Marco show.

Wallace Beery and Raymond Hatton in a hilarious comedy "Partners in Crime" featured the motion picture presentation last night.

Wednesday night will close Eddie's showing in Salem for this time.—RUTH FISHER NOLAN.

MINI HARVEST IS UNDER WAY

Distilling in Lake Labish Area Being Conducted With One Shift

An interesting operation is the running of the mint still of the Hayes interests of the Lake Labish section. There was no shut down on Labor Day. Now, standing the long period without rain here the mint is not ripening as fast as usual, so that only an eight hour shift is being operated. But this shift is getting 1000 pounds of peppermint oil a day. The oil is carried away in bottles and emptied into barrels for shipment, and every few days a consignment is made to buyers in New York. Later, perhaps, there will be two shifts, running up to 2000 pounds of peppermint oil a day.

Hay for Fertilizer
The mint, after being distilled, makes a very good stock feed, especially when mixed with other kinds of hay. The Hayes people do most of their work with tractors and trucks, and keep few horses, so they pile up the hay for the present, to be spread on the ground for fertilizer later—perhaps several years hence, for it does not rot fast. Some growers use the mint hay for stock feed. The Hayes people are the largest Oregon growers, having about 400 acres, and they will be busy for several weeks with their big distilling plant.

Onion Harvest On
All over the Lake Labish section, onion harvest is in full blast, and hundreds of acres are covered with the drying onions, which are being sacked and warehoused rapidly.

There will be several hundred cars of onions to ship from this section this year. The high quality and the premium prices of the Lake Labish section onions will make another story.

Most crops, besides mint, are slow in ripening in this section, notwithstanding the dry season.

Monday the annual reunion of the Wallace-Gentry clan was held in Riverside Auto park in West Salem, which ordinarily is held in Jefferson. There was a picnic lunch and visiting during the afternoon. Industrial Scenery
The movie set-builders, by the way, have had a chance to create something besides the usual scenery lately. For the Jannings picture a great basement distillery has been built with almost loving faithfulness to detail. It looks big enough and efficient enough to supply a city with condensed quinine or Frank's Bitter. "The Farmer's" a cheese factory has been built on the Fox lot. Only the sights and sounds of this factory will reach the screen.

Biblical Scenery
Now that the movies have a voice, Fred Niblo is ambitious to translate the Bible into talking pictures. He points out that the beauty of its language is "actor-proof" and that its reproduction would be as valuable to churches as to theaters.
