

ROBINSON STILL ATTACKS G. O. P.

Democratic Nominee Carries Campaign South Into State of Florida

JACKSONVILLE, Fla., Sept. 15.—(AP)—Almost as far into the south as it is possible to go from what has been the political frontier in recent national campaigns, Senator Joe Robinson continued tonight the attack he has made down the Atlantic seaboard against republican claims to prosperity under the Coolidge administration.

The democratic vice presidential nominee in a speech opening the party's campaign in Florida, dwelt at considerable length upon the opposition's farm record and declared Herbert Hoover's suggestion for calling "another agricultural conference, merely points to further delay."

"His insistence that higher tariffs are the real remedy," the senator said, "is absurd insofar as it relates to farm products which are exported in large quantities. Experience has shown that as to these products the tariff has not been effective."

"His suggestion that the development of inland waterways will result in the reduction of freight rates in some portions of the farm area makes clear that his party has only vague proposals for relief after eight years of opportunity to work out a definite plan."

NENDEL CLAN WILL HOLD THIRD MEET

WOODBURN, Ore., Sept. 15.—(Sp.)—Members of the Nendel clan are expected from California, Washington and remote parts of Oregon as well as from Mehama, Woodburn, Aurora and Portland, when the third annual meeting of the clan is held Sunday, September 16, in the Woodburn I. O. O. F. hall. At least 50 members are expected.

The get together is being held a month earlier than usual in honor of Master Sergeant E. F. Nendel of Kelly Field, San Antonio, Texas.

Sergeant Nendel has piloted one of the three ambulance planes in the United States army air corps on 41 trips, operating out of Kelly Field.

He has been transferred from that base to the Philippine Islands, to which Sergeant Nendel with his wife and family will sail from San Francisco next week.

Colonel Charles Lindbergh received his flying instruction at Kelly Field while Sergeant Nendel was an instructor in the flying division there. The family is visiting Arista Nendel of Woodburn.

Brilliant Horse Show Is Assured For State Fair

The biggest stakes ever offered in an Oregon state fair horse show and the timings of the fair which fills the interval between the California shows and the Pacific International show in Portland, are combining to attract some of the finest strings of horses ever seen in the west to the fair shows which open September 24.

Seven \$1000 stakes are offered to winners this year in addition to the usual cups and cash prizes in all classes and divisions. Donors of the \$1000 stakes are Aaron M. Frank of Portland in the three gaited saddle horse class; Governor Isaac Lee Patterson in the five gaited class; W. F. Turner of Portland, president of the S. P. & S. company, in the hunters and jumpers class; Lewis R. Banks of Portland for the harness ponies; A. C. Ruby of Portland, president of the Pacific International Livestock show, in the heavy harness horse class; the United States National Bank of Salem in the driving competition, a \$1000 stake is also offered in the roadsters class.

Three judges have been selected for this year's show, announces Jay Reynolds, manager. Matt Cohen of Los Angeles will judge the saddle and light harness entries; Colonel J. J. Fry of Vancouver, B. C., will judge hunters and heavy harness horses, and George Lovberry of Seattle will judge the draft teams.

Dr. and Mrs. J. H. Held of Portland, will enter their wonderful jumpers—Flying Fox, Kentucky Bob and Topsy Sinclair, all old favorites here.

Robin Hood, the five gaited saddle horse, owned by W. F. Turner of Portland, is a favorite returned by cable from its virgin island chapter workers at St. Croix that there was no communication with St. Thomas, the capital and largest city, that hundreds were homeless and that clothes and money were needed. The navy has radio transmitters at these two points and at St. Johns but had received no information of conditions on the island.

Casualties Counted
ROCKFORD, Ill., Sept. 15.—(AP)—Fifteen dead or missing and approximately 100 injured tonight made up the casualty list due to a tornado that swept through Rockford late Friday, causing upwards of \$2,000,000 damage to property. Many homes lie in ruins and several factories were demolished.

Fears that nearly 100 were killed in the collapse of a chair factory were removed today as searchers delayed in the ruins and finally reported that in addition to five found dead last night and three who died today in hospitals seven were thought to be dead in the debris of the chair factory.

A few of the injured may die, although nearly all of the three score still in hospitals have a good chance to recover. Work of clearing the streets progressed rapidly during the day and in a couple of cases, property owners began to clear out basements, to start construction of new building.

to be part of a human skull. This was located in the ashes of a large fire, in which Clark declared the head of the unidentified Mexican youth had been burned. The decapitated body of this youth was found near El Monte, several miles from Pomona, some time ago. Clark said the head was brought back to the chicken ranch in a bucket after the youth had been killed.

At Riverside the county sheriff reported that this portion of skull had been analyzed as human. He added that sufficient evidence had been found to warrant issuance of complaints, and that they would be issued.

WHAT THEY THINK

(Continued from Page 1)
lege athletics go far toward the cultivation of fairness and train one to good sportsmanship, to take defeat well."

ROY "SPEC" KEENE, athletic coach at Willamette University and former O. A. C. star, said: "One gets out of college athletics something one cannot get out of books. On the football field and in other athletics problems have to be thought out the minute they arise. For that reason college athletics are a good mental training as well as a physical training and anybody who has the opportunity to enter college athletics is indeed fortunate."

E. E. BERGMAN, mechanical engineering instructor at the Salem high school said: "I am strong for school athletics and I think they should be as much a part of the school life as any other phase of the school work. And for those who are qualified I think it will be the means of developing where anything else might fail. It is a matter of qualification and adaptability. However, the athletic field should not take up the whole school."

Chicken's Sex to Be Predetermined Scientist Claims

NEW YORK, Sept. 15.—(AP)—The New York World tomorrow will say the predetermination of the sex of a chick in the egg and the production of an "all hen" hatch has been accomplished by means of x-ray treatment by Paul R. Hadley, world war veteran, on his chicken ranch at Fanwood, N. J.

The world will say several scientists, in letters to Hadley, have declared their conviction that he has accomplished a startling innovation with far-reaching possibilities. From an economic viewpoint, these experts said, the Hadley discovery would revolutionize the poultry industry.

During August there were only 17 deaths in Klamath county, while 61 new babes were born, according to a report of the Klamath health office.

Goitre Not A Disease Milwaukee Doctor Makes Remarkable Discovery

MILWAUKEE, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A. A. Rock, Dept. 791, Box 737, Milwaukee, Wis., a prominent goitre specialist for over 24 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operations. Dr. Rock is the author of a book that tells in a simple way about treating goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. Write him today.—Adv.

DOUBT CAST UPON YOUTH'S ACCOUNT

(Continued from Page 1)
held in his hand, while he confronted the boy, a watch which had been given to young Walter Collins last winter. Without being questioned concerning the watch, young Collins, catching his gleam, exclaimed: "That looks like my watch. It is my watch."

Volunteering information on his two sons, Winslow stated that in June he received word from a traveling salesman at New Braunfels, Texas, that he had given two boys a motor lift whom he recognized from police circulars as the missing Winslow boys. The salesman advised that he turned the youths over to the police. Winslow said the police released the boys when they declared they were on their way to visit relatives. Winslow declared he believed the Texas reports to be the truth, adding that he previously had received a letter from his sons saying they were enroute to Mexico.

Conclusions Conflict
One police officer declared that hair, matted in blood on an axe found at the ranch, was that of a human being. Another part of the boy's story apparently was borne out by the finding of a large piece of bone which was declared

END SICKNESS THIS NEW WAY

No medicine, drugs or dieting. Just a light, small, comfortable, inexpensive Radio-Active Pad, worn on the back by day and over the stomach at night. Sold on free trial. You can be sure it is helping you before you buy it. Over 150,000 sold on this plan. Thousands have written us that it healed them of Neuritis, Rheumatism, High Blood Pressure, Constipation, Nervous Prostration, Heart, Lungs, Liver, Kidney and Bladder trouble, etc. No matter what you have tried or what your trouble may be, try Degen's Radio-Active Solar Pad at our risk. Write today for FREE Trial offer and descriptive literature. Radium Apparatus Co., 262 Bradbury Bldg., Los Angeles, Cal.

You can't paint a house with APPLESAUCE

"Cheap" paint is made in a cheap way. That is why it is low-priced-per-gallon—why its great promises are just applesauce.

And the painter who offers to do your house at a suspiciously low price is—more applesauce!

"Cheap" Paint and "Cheap" Painter—the Applesauce Twins—always leave grief, heavy expense and dissatisfaction in their wake. Don't waste your good money on them.

To be economical a paint must have exceptional "covering" qualities—a tough, durable film that lasts—colors that do not fade.

Fine old SWP House Paint is made that way—an SWP finish will remain beautiful for many years.

We will help you save money
Before you let out your painting job, get our estimate on materials. Compare it with the cost of "cheap" paint.

Come in for a copy of the Sherwin-Williams Household Painting Guide.
