

# GOEBEL SETS NEW RECORD

## Famous Flier Wins Fame and Glory in Flight to Pacific Coast

LOS ANGELES, Sept. 29. (Sp) — Art Goebel, American flier, whose speed accomplishments aerially have made his name within the last few weeks almost as widely known as that of "Lindy", has just hung up another record which reflects credit on the unflinching gasoline he uses in his plane. This was the comment here yesterday by the Richfield Oil company, in discussing Goebel's record-smashing non-stop flight from Missoula, Los Angeles, to Cincinnati, Ohio.

Making the distance between the Southern California metropolis and the Ohio city in 15 hours and 17 minutes in his Richfield-powered Lockheed Vega monoplane "Yankee Doodle", Goebel crossed the finish line at Tusken airport, Cincinnati, at 10:25 a. m., on Saturday after leaving Los Angeles at 4:05 p. m. on Friday.

Goebel, it was pointed out by Richfield officials and by followers of the flying game, not only won the Dole flight to Hawaii, but with Richfield gasoline in his Lockheed tanks, smashed all existing non-stop records recently between Los Angeles and New York and was the sole flier to finish (though disqualified) in the attempted non-stop transcontinental race of the national air derby during the recent Aeronautical exposition at Las Angeles.

Goebel was converted to Richfield gasoline recently by other famous flyers, it is declared; notably by the fact that Captain George Wilkins had used it with success on his Polar flight and planned to use it for the South Pole expedition. He has expressed himself as satisfied that its dependability has greatly helped him in making his many recent phenomenal long-distance air successes.

# WORK CRITICIZES UNDERWOOD TARIFF

WASHINGTON, Sept. 29. (AP)—Dr. Hubert Work, chairman of the Republican National committee, declared in a statement here that the Democrats are trying to camouflage their tariff tariff.

"The aspect of the campaign that would be most humorous," he said, "if it did not threaten so much harm to the American farmer and worker is the effort of Chairman Raskob to convince the country that the democratic nominee for president didn't mean what he said when he declared that the Underwood tariff act embodied the ideal method of handling tariff legislation."

Dr. Work asserted that the Underwood tariff, if it were operating today would ruin the American farmer and said that the democratic national chairman and the Democratic party were attempting to lull the people into a false sense of security on the tariff issue.

# Women's Ballot May Split South Says Lady Astor

NEW YORK, Sept. 29. (AP)—Lady Astor of the British Parliament today came back for a visit to her native land and expressed the opinion that the advance by women in politics might break the solid south in the presidential election for the first time.

"I wouldn't be a bit surprised if the women's vote split the solid south," she said as she arrived with her daughter, Phyllis, on the Aquitania. "I should say the present election in America is going to be influenced strongly by what the women think."

# What Dr. Caldwell Learned in 47 Years Practice

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time regardless of how much one tries to avoid it.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. In a practice of 47 years he never saw any reason for their use when a medicine like Syrup Pepsin will empty the bowels just as promptly, more cleanly and gently, without griping and harm to the system.

# Alex Sparrow Is Appointed Judge

Alex Sparrow of Medford Friday was appointed by Governor Patterson as county judge of Jackson county to succeed the late Judge W. J. Hartnell. Mr. Hartnell died a week ago, after an illness of several months.

Havana's "fotingoes" or fow-hire automobiles have become taxicabs. Fares are now paid by the meter instead of arbitrary charges by zones.

A new opera is being completed by Maestro Giuseppe Pietri of his villa near Florence, Italy.

Mussolini made a personal contribution of more than \$300 to families of miners who perished in a recent cave-in.

A baby bay playing with matches made a literal furnace of the village of Fornace in Italy.

# WHEN AUTUMN LEAVES FALL

When nights are getting long, when frost is on the ground it's time to think of the long nights at home—it's time to prepare for them.

Perhaps a chair and a lamp in that gloomy corner will cheer you along after a day of toil. Perhaps a table is needed—a davenport—a rug.
