Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips' Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is dissipated; all sourness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take.

Any drugstore has the genuine, prescription product.

Convenience urges an
Extension Telephone

Just as you appreciate running water in more than one room in the house, so you would appreciate an extension telephone. Its cost is only a few cents a day; its convenience is great, and sometimes it is even a factor in guarding the safety of your household.

This home of two stories has its main telephone in the dining room and an extension in the owner's bedroom.

FIRST FLOOR SUGGESTION FOR TELEPHONE

An extension in the owner's bedroom is convenient for the housewife by day, and makes the telephone readily available by night.

The cost is very small. Call our business office and say "I want an extension telephone."
