"DUNLOP CITY"

DUNLOP CITY

Throughout the world, the productive Dunlop properties cover so vast an area that—if combined into one place—they would form a "Dunlop City" of over 100,000 acres

4 times as big as
PITTSBURGH

THINK of all the great factories at Pittsburgh, Pa., and yet the 29,226 acres occupied by that city is only about a fourth the area of the productive properties occupied by Dunlop.

Great size proves great quality, Dunlop could never have grown to its present magnitude unless its tires had given outstanding value.

Greater size makes possible greater quality. Dunlop today is making far better tires than in all the 39 years since John Boyd Dunlop founded the pneumatic tire industry.

Until you put Dunlops on your car, you will miss something of economy, comfort and safety.
