

SALEM CITIZEN IS DESIGNATED

Hamilton Made Chairman of National Home Furnishings Campaign Here

Announcement was made Monday of the appointment of C. S. Hamilton, of the Hamilton Furniture company, as Salem chairman for the national home furnishings campaign, the four-year advertising project of the furniture industry. Russell H. Tarr, of Tampa, Fla., president of the National Retail Furniture association, made the appointment, and Mr. Hamilton will be associated in the work of the campaign in the Salem district with A. G. Sieberts of Portland, recently appointed state chairman, and J. King Bryon, of Portland, and H. L. Stiff, of the H. L. Stiff Furniture company, of this city, associate state chairmen.

Coincident with the announcement of Mr. Hamilton's appointment, city chairmen for other Oregon cities were named, and the organization for the entire state is now complete. The men will serve in the direction of the activities of the campaign in this state throughout the duration of the program.

Purpose Outlined
"One of the purposes of this campaign is to bring the American Home back into fashion," Mr. Tarr said in discussing the plans of the association.

"Too many homes of today do not properly represent their owners. Many an American home has lost its influence with the younger members of the family because it is full of out-of-date, outworn furniture, and they are ashamed to bring their friends into such surroundings. Naturally, there is no center for the family life.

"The homes of our mothers and fathers were their greatest pride. They were always furnished as well, and as completely, as the means of their owners could afford. The home came first. They were great centers of life; parties and 'dates' in our own generation, were affairs of the home. Only seldom did we seek entertainment outside.

Home Place to Sleep
"Now so much of our entertainment is outside the home that for many families, or for some members of any families, it is only a place to sleep. It ought to be made so bright, so comfortable, that it would compete in attractiveness with the lure of outside entertainment, and these young people would find pleasure in bringing their friends home, and would really enjoy parties at home instead of always going somewhere else.
