"Salem will Grow," says Geo. Vick, Chamber of Commerce President.

"I am sure this city will grow providing national conditions are not disrupted. Salem is due for more than a natural growth. Owing to the larger payrolls, paper mills and plants and the flax industry in all its stages, the enormous increase in our canned goods, in addition to the fact that Salem is backed by one of the best farm communities in Oregon. This country is best because of its diversity of cash products."

ROTH'S, too, is bound to grow, just as it has grown in the 28 years during which it has served Salem. It believes in local development and as a home-owned institution is doing everything in its part to make Salem "bigger and better."

## "Quality means much to the Housewife," says Miss Williams of cooking school fame.
