Western Lady Knew the Way

Every mother knows what it means when her child begins to get underweight, pale, listless, bilious, feverish and fretful, with bad breath, coated tongue and no appetite. What every one of them doesn't know is that it's dangerous to use harsh methods to start the little stomach and bowels.

There's no use experimenting in such cases. Millions of mothers have proved the merit and reliability of pleasant-tasting, purely vegetable California Fig Syrup. It gently clears up the most stubborn cases of constipation; stimulates the appetite; gives tone and strength to weak stomach and bowels so they continue to act normally, of their own accord; and makes pale, lifeless children, bright, rosy-cheeked and full of energy.

A Nebraska mother, Mrs. Hazel E. Roberts, Congress Hotel, Omaha, says: "My little girl, Maylon, developed constipation. She became bilious, pale and fretful; had no appetite and couldn't digest right. She was losing weight. I had taken California Fig Syrup as a child, so I gave it to her. It regulated her quick. She began eating heartily and digesting everything. Soon she was her robust self again."
