rarket-traders greeted the new national
administraton with an orgy of buying today which taxed the capacity of the Exchange almost to the limit, and piled up
the largest total of sales ever recorded in
a rising market. Transactions aggregated
4.891,200 shares. This figure was exceeded only on June 12, when sales crossed the 5,000,000 mark in a fail market.
Oils and coppers were purchased in ed the 5,000,000 mark in a fall market.

Oils and coppers were purchased in enormous yolume, and utilities were prominent in the advance. The buying of these shares was based on the belief that a number of developments, including merrers, have been held in abeyance until feer election, and also upon the fact that they have not participated proportionate v in the long upswing of the so-called "Coolidge market." A wide assortment of stocks mounted to 5 to 15 points and the Associated Press average of 20 industrials rose to a new high at 229,63 up about 6.10.

The "Bullish" response to the overwhelming victory of Hoover was atimizated by a number of favorable monetary and industrial developments. Call ary and industrial developments. Call toney opened at 6 percent for the first me in about a fortnight, and was available in the cateful.
