WHEN THE MOON IS ECLIPSED

When the eclipse of the moon occurs on the morning of Nov. 27, the moon, sun and earth will be in the position indicated in the diagram above. An eclipse always occurs when the moon passes directly into the umbra, or shadow of the earth. There is a partial eclipse when the moon passes into the penumbra, or partial shadow of the earth. Inset, a photographic reproduction of the various stages of an eclipse of the moon.

New Chevrolet Details To Be Revealed Today and one brother, Charles of Chico

Specifications of engine and body design of the new Chevrolet six will be shown by displays in the showroom of the Douglas Mc-Kay Chevrolet company on North Commercial street today. Salesmen will explain all features of the 12 illustrations.

A motion picture film received from the General Motors company will show the different steps of construction and development of the new car. A synchronized phonograph record will reproduce a talk of R. H. Grant, vice-president in charge of sales for Chevrolet Motors, giving details of the motor and of factory changes.

The 12 illuminated prints will show new details of motor construction and colored representations of the new body designs. Visitors will be able to do everything but ride in the new car which will not be delivered to Sa-
