## Western Lady Tells Story

Nature controls all the functions of our digestive organs except one. We have control over that, and it's the function that causes the most trouble. See that your children form regular bowel habits, and at the first sign of bad breath, coated tongue, biliousness or constipation, give them a little California Fig Syrup. It regulates the bowels and stomach and gives these organs tone and strength so they continue to act as Nature intends them to. It helps build up and strengthen pale, listless, underweight children. Children love its rich, fruity taste and it's purely vegetable, so you can give it as often as your child's appetite lags or he seems feverish, cross or fretful.

## Western Lady Tells Story

Leading physicians have endorsed it for 50 years, and its overwhelming sales record of over four million bottles a year shows how mothers depend on it. A Western mother, Mrs. R. W. Stewart, 4112 Maritan St., Denver, Colorado, says: "Raymond was terribly pulled down by constipation. He got weak, fretful and cross. He had no appetite or energy and food seemed to sour in his stomach. California Fig Syrup had him romping and playing again in just a few days, and soon he was back to normal weight, looking better than he had looked in months." Protect your child from imitations of California Fig Syrup. The mark of the genuine is the word "California" on the carton.
