It is well for a man to respect his own vocation whatever it it, and to think himself bound to uphold it, and to claim for it the respect it deserves .- Dickens.

Fuss and Feathers

THE Quaker tastes of Herbert Hoover are simple. He is not given to fuss and feathers. Besides, he has had the engineer's training for directness; for short cuts; for getting the thing done.

But he bought himself what the loggers in Coos county used to call a "stovepipe" hat, on a brief shopping tour in San Francisco just before he departed on his goodwill trip. This is for formal meetings with the highhats of the Latin American republics, who are nothing unless formal. Also he carries on the Maryland a diplomat; that no red tape observance may be overlooked. Also, he carries a doctor, to see that he does not eat shell fish out of season. Of course, the secret service men are with him. That's the rule and the law. They are there in the interest of safety first, last and all the time. The cranks must be kept at a distance.

When President Ayora of Ecuador met Mr. Hoover he gave him the "abrazo," and Mr. Hoover gave Mr. Ayora the same. That is the Latin American greeting of everlasting friendship. Breast to breast. President Roosevelt might have called it the "bunny hug." It is like eating at the table of a Turk, which binds him in the protection of your life. All missionaries in that country know this well. It is like mingling the salt with a guest at a Hindu meal. The thing might be extended, in the strange customs of many peoples.

Mr. Hoover is an apt pupil. He has to do as the Romans do, Quaker or no Quaker. He wants a simple inauguration. He has ordered it. But official Washington goes ahead with preparations for an event comparable to the ceremonies of installing a mikado on his throne.

Call up the shades of William Penn!

Into the Sunset

UMBERING over the hills and valleys of life, as it lumbered in the days of trackless prairies, the schooner of Ezra Meeker has crossed the last hill and has disappeared into the sunset.

Ezra Meeker lived a long and happily picturesque life. He came into the northwestern wilderness as a mere boy, and he was within a few years of rounding out a century of life. A life he devoted to an earnest effort to perpetuate the memories and the works of the pioneers.

Yet throughout it all, Meeker was the first to accept the new and the progressive thing. Not for him to rest on the laurels of a brilliant conquest in which he shared. Not for him to lament the passing of the old and decry the new, but to cherish the memory of the one and to erect upon the solid foundation of the past the new structure of northwestern civilization.

Ezra Meeker's life may offer a fine example to others who are tempted to believe that all the good works have becal done, all the rich lives have been lived. Meeker lived through done, all the rich lives have been lived. Meeker lived through the day of the prairie schooner to the era of the airplane and the day of the prairie schooner to the era of the airplane and himself equally responsive to both.

That Mr. Raskob, temporarily democrat, and his associates had their day. And such a day! The least they can do is to return the party to the control of its three-fourths college 2 to 11 at the Willamette dry majority-

That it is a case of dry or die.

The votes of 100,000 democrats in Texas who attempted to vote for Hoover were thrown out. They have a straight from a New York firm a minute party ticket there, as some people want in Oregon. The piece of the new metal, radium. It democrats were not used to scratching. It was a new thing is quite probable this is the only to them. Hence the wrong marking of 100,000 of them; and piece of the metal in Oregon. of course the democratic election boards threw them out. But Hoover had 23,000 majority, after losing the votes of 100,- High Pressure Pete 000 who were for him and did not know how to scratch according to Hoyle. If Texas keeps on, it will get at the head of the rock-ribbed republican column, above Maine.

Congressman Hawley is Johnny on the spot. The hearings on the new tariff bill will proceed, and there will be an extra session and farm relief in time for next harvest, and not after most farmers die of old age and get beyond the

Kellygrams FRED C.

66 TATE business men owe much to hobbies of our employes," said a manufacturer who has several hundred on his payroll, "It is possible to get a higher grade of service from a man if he has a hobby than if his only interest is his job. What I mean is this: Suppose a man is a failure as a salesman or at some other high-salaried line of work and is compelled to take a routine job, such as account-ant, minor executive work or even a clerkship. He is too intelligent to be pleased with his job, but nevertheless does it well and sticks at it year after year. Now, this wouldn't be possible for him if he didn't get contentment and satisfaction out of something else than his job. His interest in raising dogs or chickens, or puttering at amateur carpentry keeps him in a happy frame of mind."
