W. J. Stockholm Master of Monmouth Organization; Dinner Is Planned

MONMOUTH, Ore., Dec. 11.—(Special)—An all day session of the Monmouth grange was held Saturday with dinner served at noon. Worthy Master Powell presided and a large crowd was present. To conclude the morning program, J. R. Beck, Polk county agent, outlined briefly and concisely the work accomplished within the past two years in control of cherry pests and fruit flies; Himerock experimentation on soil; growing of disease resistant clover seed and experiments with an improved spring wheat seed which yields more per acre than ordinary varieties. Master Powell appointed the following committee to attend the county budget meeting December 21: G. A. Peterson, George Kurze, Jesse Johnson, T. J. Edwards and W. J. Stockholm. Election of 1929 officers occupied most of the afternoon and resulted as follows: Master, W. J. Stockholm; overseer, Jesse Johnson; lecturer, Mrs. T. J. Edwards; steward, T. J. Edwards; assistant steward, George Kurze; chaplain, Mrs. Adelle Calbreath; treasurer, J. L. Murdoch; secretary, Mrs. Beulah H. Craven; gatekeeper, George McLaughlin; Ceres, Miss Alice Butler; Pomona, Mrs. William Riddell Jr.; Flora, Mrs. Jesse Johnson; lady assistant steward, Mrs. W. J. Stockholm; musician, Mrs. George Kurze. Tentative plans were discussed for the annual New Year's dinner, which is the principal social event of the year for this organization. It was decided to make the 1929 dinner a homecoming for all members, former members and families, also invited guests of the regular members. This committee was appointed to work out complete arrangements: Mrs. William Riddell Jr., Mrs. Beulah H. Craven, Mrs. Jesse Johnson, Mrs. T. J. Edwards and Mrs. A. G. Peterson.

STOCK MARKET STILL GOING UP

NEW YORK, Dec. 11.—(AP)—Prices moved quietly forward on the stock market today. In the lightest trading since Nov. 5, the day before election, some two score issues mounted 1/8 to 1/2 point, half a dozen touching new high ground. Call money renewed at 8 percent for the first time in just a week, and later fell to 7. Time money, however, was firmer. Coppers, Steels, Rails, Motors and Utilities were prominent in the day's rise. Federal mining made up 21 points of its 50 point drop of Saturday, while Greene Cananea Copper, DuPont and Radio made extreme gains of 15 points. Radio closed at 320, just 100 points under its high. Packard also made a 15 point gain, setting a 155, about 3 points under its high. Bethlehem Steel was brought forward as a new market leader, mounting more than 6 points to a new peak at 86 3/8. Bon Ami, a Columbia Carbon, Goodrich and Inland steel, International telephone, and Pittsburgh Coal preferred climbed about 4 to 12 points to new high prices. Montgomery Ward sold ex-rights today, closing at 123 1/2, and the rights were admitted to trading, closing at 215, equivalent to 343 1/2 for the old stock, which closed yesterday at 334 7/8. American Telephone sold up about six points and closed 4 1/2 up. Consolidated Gas, Chrysler, Nickel Plate, and Union Pacific mounted 1/2 to 4 points, while General Motors, American Can, and U. S. Steel made gains of around 2 points.

Heir to British Throne Wins Long Race Against Death; Sees King Alive

LONDON, Dec. 11. (AP)—The sovereign of the British Empire, exhausted by three weeks of struggle against serious illness, late tonight greeted his son and heir who had hurried 6,000 miles to reach his father's bedside. King George had not previously been told of the expected arrival of the Prince of Wales, but he was said to have immediately recognized the prince. Their visit was not prolonged for fear of tiring the patient. At about the same time it was said at Buckingham Palace that there was a slight change for the better in the condition of the king. The prince, in the hour that he spent at the palace, saw also his mother, his sister and his brother, the Duke of York. Upon leaving the palace the prince went to his own home at York House.

LONDON, Dec. 11. (AP)—The Prince of Wales tonight won his long dash from farthest Africa and reached the sick room of his stricken father. He arrived at Buckingham Palace at 10:35 p. m. where King George for three weeks has been fighting pleurisy and lung infection which had caused anxiety throughout his empire. Aided by the resources of three nations in his final dash across Europe, the heir to the throne was met on his landing on English soil at Folkestone by Prime Minister Stanley Baldwin. Again he received the latest word from his father when his younger brother, the Duke of York met him at Victoria station.

The brothers rode together to the palace, the duke recounting the progress of the illness as he had seen it in constant attendance at the palace as the only son of the king then in England. A mighty throng of all classes such as has gathered daily outside the palace to await medical bulletins on the king had waited for more than one hour behind strong police lines at the railroad station for a glimpse of the young man who may soon be called upon to lead England. Some of the men and women in the close-packed ranks wore fashionable furs and others shivered in shabby suits. All burst into spontaneous cheer, despite the gravity of the situation, when the prince appeared. He looked well after his hunting trip in East Africa but his face showed the strain of his anxiety and the marks of his forcing of the earth to support his diseased father and sorrowing mother had stirred all races and peoples.

RECORD IS BROKEN THRICE IN SERIES

Local bowlers have been breaking records right and left for the last two weeks, but it remained for players in the Commercial league to break the same record three times in one match. This occurred in the competition Tuesday night between the Chevrolet and Valley Motor teams—a typical Chevrolet-Ford battle—when the single game record was beaten by Phillips of Valley Motor with a 228, Johnson of Chevrolet with a 229, and Wright of Chevrolet with the new mark that counted after it was over, 242. The Valley Motor won two games out of three, taking the deciding one by two pins.

The Barr Plumbers beat the General Petroleum quintet three games straight, and the Capital City Bedding Cubs won a similar victory over Wood's Auto company. Scores were:

People spoke in whispers as though afraid that their voices even at that distance might disturb the sick man who is their beloved king. They obeyed the gesture of the directing police. Thousands came to join the multitude already standing before the palace. They made no demonstration, standing silently while awaiting any new indication of the condition of his majesty. The gallant and tireless journey of the young heir in desperate efforts to reach the palace before tragedy should crown him king and emperor had progressed under the eyes of the world which watched the drama with almost unparalleled interest and sympathy. The spectacle of an affectionate son hastening from the ends of the earth to support his diseased father and sorrowing mother had stirred all races and peoples.

BARGE FOUNDERS; 2 OF CREW DROWNED

SAN PEDRO, Dec. 11.—(AP)—Two members of the crew of the Barge Blue Sea, which foundered off San Pedro last night in a 50 mile gale, were dead and three others, one of whom may die were being treated on the U. S. S. Hospital Ship Relief tonight. The dead: Peter Sellars, cook. John Shortly, deck hand. The injured: Captain H. W. Major, skipper. Barry Dunham, lunch counter attendant. The Blue Sea, perhaps the most palatial fishing barge on the west coast, served as a transfer boat for the gambling ship Monfalcone, anchored 11 miles out.

It is to take some degree of Christmas cheer to such homes that the kettles are now boiling on the street corners. The clink of coins in these kettles means Christmas cheer as does nothing else. Soon the opportunity to contribute to this fund and have a part in such a happy work will be over—so give NOW. Most serious injuries suffered by football players are due to their not being in the proper physical condition when they entered the game, says Keene Fitzpatrick, who has acted as trainer for Princeton grid squads since 1910.

'Lombardi' Opens Four Day Showing At Elsinore Tonight

One of the most delightful plays that has been given to the American stage is "Lombardi Ltd.," and during the past two years it has played to more people than any other play since "Able's Irish Rose." It opens a four day showing at the Elsinore stage tonight. The theme of "Lombardi" is love, laughter and feminine frocks, truly a magnet for any box office. The scenes are laid in the studio of Tito Lombardi, a lovable Italian, who designs beautiful gowns for New York's 409, and from the rise of the curtain in the first act until the finale of the great "bankrupt scene," there is not one dull moment. Charles E. Royal, who will be the star in "Lombardi Ltd.," is known from New York to San Francisco in great dialect parts and his characterization of Tito Lombardi is said to be his crowning achievement. Seeing what happened to Kaute Hansen, over whom a host of managers squabbled, Max Schmeling, German light heavyweight, over here for the fistic wars, has decided to do his own managing. A joint committee from the National Trotting association and the American Trotting association will meet in Chicago, Ill., to revise certain rules and provide a uniform code for the sport throughout the country.

SCIENTISTS AT LOSS IN INFLUENZA STUDY

WASHINGTON, Dec. 11.—(AP)—While government health officials issued warnings and instructions today, in the hope of curbing the spread of influenza, Dr. G. W. McCoy, director of the hygienic laboratory of the public health service declared that the cause of the disease was still "a question mark" to scientists. "The bacillus which causes influenza has never been isolated," he said. "It is impossible to say whether the disease results from activities of one or of several germs." During the epidemic of 1918 a germ, he explained, the Pfeiffer bacillus, was isolated and accepted as the influenza virus. This belief lasted until the epidemic of 1918. "The last epidemic discredited the Pfeiffer bacillus beyond a doubt," he continued. "There were a number of proofs that this was the wrong germ, notably the fact that it is impossible to communicate the disease by inoculation with the Pfeiffer bacillus." One reason so little is known of influenza is that it lasts a comparatively short time, he said, and investigation of how the disease is transmitted, and how it may be prevented, and predicted, will be spurred by this, the present outbreak.
