### ROAD PETITIONS ARE NUMEROUS

**Extension South from Salem To Two Ferries Asked in New Filings**

County roads will be extended on south to connect Salem with the Independence and Buena Vista ferries near west if petitions filed with the county court Tuesday are granted by the court. Since petitions have been presented in far greater number than anyone thinks can be granted; however, some doubt exists as to whether the new building program will actually include the two roads asked for. Six petitions placed in the hands of the court during the first two days of this week have brought the total up to 35.

**Signatures Many**

Two petitions have to do with one road. One of the papers, signed by 100 per cent of the property owners along the designated route, asks establishment of a market road from the northwest corner of the Fred Schwab farm to the Gervais-Parkerville road. The other paper having to do with the same road is signed by 62 per cent, mostly residents of Mount Angel who would use the road. This list has been presented to the court for moral effect. It is headed by Joseph J. Keber of Mount Angel.

A petition by J. O. Darley of Silverton and eight others asks establishment of a market road along the present Victor Point road from Drift Creek bridge past the Victor Point store on the first cross road.

**Want Route South**

A petition by Elmer Lorence of Silverton, route 3, and 17 others, requests a market road over the Silverton-Victor Point road beginning at the ending of present market road 46, extending south over Drift Creek bridge and on to Dinsmore bridge.

There is a distance of six miles yet to be made into market road before the route from Salem through Liberty and on to Buena Vista ferry is complete. The petition asking that this six-mile stretch be made into market road has been signed by George W. Palmer and 41 others. The road is described as that extending from Fairview school house past Union school house to the Buena Vista ferry.

J. R. Pollock of Salem and 17 others have signed the petition asking that the four miles of road still remaining unimproved between Salem and Independence ferry, be made into market road. This road is designated by the petition as extending from Hall's Ferry station past Orville station to Independence ferry.

**Eugenean Here**—W. E. Frazier of Eugene is a Salem business visitor.
