## Have You Faith? In Your Dentist?

**Faith in His Ability  
Faith in His Honesty of Purpose  
Faith in His Guarantee**

Faith is a wonderful thing, a very necessary and comforting part of our existence. I never knew a man or woman who had "faith" who was very bad, nor one who lacked "faith" who was very good. There's something intuitive about faith—you seem to "know" things and people are true, even though all the world says otherwise. You see faith in the eyes of your dog—faith in the smile of a child—faith in the trust of a woman, and faith in the hand-clasp of your friends. Better a man lose all than lose his faith in himself and his friends. The measure of success I have made in my profession I owe to faith. I had faith in myself, in my ability to serve the public well, and faith that my HONESTY OF PURPOSE, at LOWER PRICES would not confuse this office with the nameless irresponsible concerns who use cheap prices, merely as a "bait" or "lure."

People who must count the cost of dental work in these days of high prices should look for RESPONSIBILITY FIRST and price afterward.

If my very low fees were the only inducement I offered I should not expect, nor should I deserve, the patronage of the people who think for themselves.
