#### Kellogg Treaty May be Put Into Immediate Effect With Neighbors

MOSCOW, Jan. 1.—(AP)—The Soviet government today proposed to Poland and Lithuania that pending ratification of the Kellogg renunciation of war pact by all the powers concerned, they agree to sign a protocol giving the pact immediate effect as between themselves.

The note which was handed to the Polish minister by Mr. Litvinoff, acting commissar for foreign affairs, was published in the Moscow press today. Pointing out that Poland and Soviet Russia signed the Kellogg pact and referring to the reservations made by the Soviet government in signing that pact and the motive actuating it to adhere to the instrument, the note continues:

### Noted Orchestra Booked to Appear On Elsinore Bill

Warner Stone, who with his 12 piece orchestra, has been engaged to play a special engagement at the Elsinore on Saturday, Sunday, and Monday.

This aggregation comes to Elsinore fresh from a triumph tour of Americans leading theatre. Each member of the organization is a trained musician and entertainer, playing two or more instruments each, giving the band a range of versatility seldom found in the modern band.

New tempos, and special arrangements of the late hits with a number of novelty numbers, including clever vaudeville stunts performed by past masters of the art, make the program presented by Warner Stone and his orchestra.

### AMERICAN WOMAN SHOT BY INDIANS

LONDON, Jan. 1.—(AP)—The Daily Mail's correspondent at Peshawar, northwestern frontier province, India, tonight cabled that Mrs. Carol Isaacson was wounded while driving in an automobile under the American flag through the streets of Kabul, Afghanistan. She was on her way to seek shelter in a legation. The wound was slight and is healing.

Mrs. Isaacson was brought to safety last week in a British military airplane. Following their marriage in Manila, she and her husband were making a leisurely honeymoon tour on their way to visit his parents in Wisconsin.

Soon after her arrival in Peshawar, she had described the tense situation in the Afghan capital when the foreign population crowded into the British legation while the rebellion went on around them. The Mail correspondent said that she told him that she was struck by a rifle bullet while driving an automobile which had the American flag flying about its radiator.

She told of seeing King Amanullah, "apparently a desperate man" walk to the head of his troops and appeal for their support only to see them hurry back toward their homes. She described witnessing the death of a brother of Bacha Sakad called the Robin Hood of Afghanistan and of seeing the streets near the British legation littered with blood. She said that heads were carried about on bayonets as an object lesson.

### INVESTIGATION OF AIR LANES IS MADE

President-Elect Hoover Inquires as to Possibility of Establishment

U. S. S. UTAH, en Route to Hampton Roads, Jan. 1.—(AP)—Development of air transportation between the United States and South America is one of the matters in which President-Elect Hoover has interested himself throughout the Latin-American tour.

His interest found an instant response on the part of government officials in all the countries visited, but it was appreciated that there are serious difficulties to be overcome before reliable international air services can be developed. Plans were discussed that would bring Washington within 72 hours of Lima, Peru, and within 4 days of Buenos Aires, as compared to 12 or 14 days at present required by the fastest steamers.

The east coast line presents the greatest difficulties because of the vast stretch of practically uninhabited land in Brazil which must be crossed unless the line of the coast is followed. In Mr. Hoover's opinion, after consulting available maps, there would be little difficulty in establishing a service along Venezuela and the Guianas, but once the border of Brazil is reached the difficulties would begin and might prove unsurmountable.

### SCIENTISTS STRIKE BACK IN RESOLUTION

(Continued from Page 1.) vote," the resolution cited the action of three states which have enacted anti-evolution laws and similar restrictions in various institutions on learning, and declared:

"We deplore efforts to restrict the freedom of teaching and learning in science.

"We deplore such action first because evolution in some form is accepted by practically all competent men of science the world over and second, because the idea of evolution has so profoundly influenced the thinking mankind in biology, psychology, ethics, social science and philosophy that one can pretend to have a liberal education who is ignorant of its grounds and import.

"We deplore these measures also for a deeper reason which should appeal to all Americans of whatever creed who believe in intellectual and religious liberty whether they accept or reject the theory of evolution, namely that such restrictions constitute a violation of a fundamental principle of freedom essential to all progress.

Although "the general conditions of academic freedom and tenure" have improved throughout the country in recent years, the American Association of University professors was told today that much remains to be done.

### Ruler of Turkey Requires People To Learn 3 R's

CONSTANTINOPLE, Jan. 1.—(AP)—The greatest revolution of the revolutionary career of Ghazi Mustafa Kemal opened officials on New Year's day. It is aimed at reducing Turkey's illiteracy from 90 per cent to 10 per cent within four months.

The big A B C mobilization started today when street criers beat drums in every village throughout Turkey, calling on all males and females between the ages of 16 and 40 to enroll tomorrow in the thousands of new national schools. Kemal's law requires the illiterate to take a four months course in the new Latin alphabet of Turkey.

### Sex of Insects Controlled by Dieting Method

BERKELEY, Cal., Jan. 1.—(AP)—Professor W. B. Hermes, parasitologist and entomologist of reported to that institution the University of California, has that he had succeeded in demonstrating by experiments that the ratio of males to females among certain insects can be determined by the amount of food given them in the larval state.

Professor Hermes said that by limiting the feeding period of the larvae of the green bottle fly he could raise almost twice as many males as females, while with a plentiful diet of food he obtained two or three times as many females as males.
