HAMILTON RESIGNS BOARD OF REGENTS

EUGENE, Jan. 12.—(AP)—Judge J. W. Hamilton, of Roseburg, member of the board of regents of the University for 28 years, and president for several terms, announced at the regular meeting today that he is tendering his resignation as a member of the governing body, and that therefore he would not be a candidate for re-election as president. His resignation is to be sent to Governor Patterson, who will appoint his successor.

Fred Fisk, Eugene, who is next to Judge Hamilton in point of service on the board, was chosen vice-president. Due to the absence of Mr. Fisk, Mrs. Gerlinger presided at the election, the first woman to ever sit at the head of the board.

Warm commendation for work done on the board during his service was expressed to Judge Hamilton by other board members. Judge Hamilton has seen the university grow from a few buildings and a few hundred students to its present size and enrollment of more than 3,200 on the Eugene campus.

Judge Hamilton gave as his reason for the resignation the fact that due to his advancing years he wished more time for other affairs.

FANNIE VERSATILE IN TALKING FILMS

There are comedians whose sole purpose on the stage is to bring a laugh; there are tragedy artists whose every effort is bent to stir violent emotion, but it is seldom true that the same person is able to be both comedian and tragedian—that is the same person who brings side-splitting laughter and by a simple twist of expression and a modulation of voice brings stinging tears and a lump in the throat.

Fanny Brice is one of the few who do both. Some have called her a "female Al Jolson" and I would add to that a dash of the famous fine tragedy of Duse. Certainly few could sit through the production "My Man" and not experience both tears and laughter.

Any one who has ever been fortunate enough to have heard Fanny Brice in some of her famous skits in Ziegfeld's Follies will be pleased to know that "My Man" combines some of her best acts into a well developed play.

The vitaphone makes it possible to see her inimitable "spring dance" in which she resembles nothing more than an elongated Harry Lauder leaping joyfully about the stage, and at the same time hear her deep, throaty voice whose characteristic modulations are as funny as the dance. It also makes it possible to hear "My Man" sung in such a way as only Fanny Brice can sing it—the only thing one misses in it is the street lamp and the bowery clothes which she used in her legitimate stage production.

Fanny Brice is really the whole show in "My Man" at the Capitol tonight but she has always been the whole show where ever she has appeared—from the Orpheum to Ziegfeld's Follies—she has been so much the whole show that a play (Fanny) has been written just to give her art a chance.

Yes, she is the whole show and one does not mind a bit—her deep, husky voice, her crooked smile, her eyes deep and tragic at times, and again dancing with deviltry—of all these one does not get enough, not even when she is the whole show.—OLIVE DOAK.

WAYS AND MEANS COMMITTEE BUSY

WASHINGTON, Jan. 12.—(AP)—Ways and means committee considering tariff revision today concluded hearings on the earthenware and glassware schedules and Monday will begin taking testimony on the important metal items, on which more than 100 witnesses have asked to be heard.

More than a score of witnesses appeared before the committee today seeking readjustments, increases and decreases in rates on all kinds of plate and window glass. As in the hearings on the first schedule, importers and manufacturers were found in disagreement.

A proposal by J. W. Price of the Benjamin Schottland and Vitria company, Inc., New York, importers of Belgian and Jugo-Slavian glass, for a reduction of approximately 50 percent in existing duties on various sizes of window glass was followed by a concerted effort on the part of the manufacturers to have the tariff increased.
