### Dr. Doney Says Time Limit Makes Necessary Final Drive for Money

At the Willamette university chapel hour Monday, Dr. Carl G. Doney, president of the university, gave a brief review of the history of the Willamette university forward movement. The drive which is being made during this month and February for the raising of the finishing work started nearly eight years ago.

In 1920 Dr. Wallace Buttrick and Dr. Trevor Arnett of the General Education Board of the Rockefeller foundation visited Willamette university. Their favorable report caused the board to offer the university \$350,000 for endowment if other friends of the university should give \$650,000. It was further stipulated that the university must be free of debt. Because of this offer of the General Education board, the Willamette forward movement was begun in 1922.

### Extra Financial Burden

In the drive made in 1922, over a million dollars were pledged to the university in pledges payable in five years, and in deferred payments, life endowment pledges and estate pledges. Of this amount, approximately \$650,000 have been collected, an amount equal to that required by the contract with the General Education board. Dr. Doney declared that this amount was high in comparison with the amounts collected from similar drives by other colleges. From this amount, however, it was necessary to take money to rebuild Waller hall and to build a new gymnasium, because of the destruction of former buildings by fire. Some money was due on the building of Lausanne hall, the women's dormitory, and on other old debts. These added financial burdens made a total outlay of approximately \$770,000.

### To Complete Contract

The original contract provided that the university must raise its \$650,000 for endowment by October, 1928. Last fall the time was extended one year. The object of the present campaign is to obtain \$300,000 in order to meet the contract with the General Education board and to receive the balance of their pledge, \$147,496.33. At the present time Willamette university has applied \$385,500 on the contract, of which \$16,500 are unutilized. The university has received \$202,593.67 from the General Education board.

# "Light a Lucky and you'll never miss sweets that make you fat"

INSTEAD of eating between meals... instead of fattening sweets... beautiful women keep youthful slenderness these days by smoking Luckies. The smartest and loveliest women of the modern stage take this means of keeping slender... when others nibble fattening sweets, they light a Lucky!

Lucky Strike is a delightful blend of the world's finest tobaccos. These tobaccos are toasted—a costly extra process which develops and improves the flavor. That's why Luckies are a delightful alternative for fattening sweets. That's why there's real health in Lucky Strike. That's why folks say: "It's good to smoke Luckies."

For years this has been no secret to those men who keep fit and trim. They know that Luckies steady their nerves and do not harm their physical condition. They know that Lucky Strike is the favorite cigarette of many prominent athletes, who must keep in good shape. They respect the opinions of 20,679 physicians who maintain that Luckies are less irritating to the throat than other cigarettes.

A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. So, for moderation's sake we say:—

"REACH FOR A LUCKY INSTEAD OF A SWEET."

## "It's toasted" CIGARETTES

No Throat Irritation—No Cough. Coast to coast radio hook-up every Saturday night through the National Broadcasting Company's network. The Lucky Strike Dance Orchestra in "The Tunes that made Broadway, Broadway."
