KEEP STOMACH YOUNG!

Eat What You Want

When the food you eat goes into your acid-soaked stomach, it sours and can't digest, makes foul gas and sour bile. The blood takes these poisonous acids and carries them through the body. Naturally it makes you miserable and dependent because your system is not nourished—you lose weight. Pape's Diapepsin dissolves the acids and sweetens the stomach. It digests the food; no more sour bile is taken up by the blood. Your appetite is like a youngster's again, and gradually you get back your health, flesh and energy.

Chew a tablet or two of Pape's Diapepsin after meals. It tastes good, and relieves the misery of indigestion in five minutes. It will keep your stomach young and vigorous so you can eat anything you want without being afraid of the consequences.—adv.
