SCHOOL DISTRICT SAID HANDICAPPED

Relief must be provided by the legislature at its present session for the Warrenton school district in Clatsop county, or there is a possibility that the efficiency of the schools there will be decreased materially because of insufficient funds for operation.

"The Warrenton school district," read the letter, "comprises all of the territory within the city limits of Warrenton. Included within these limits is a great deal of taxable property upon which the owners have failed to pay taxes for some years.

"A few years ago the assessable value of the property within the school district was approximately \$3,000,000. The value of this property is now \$971,000. At the time when the assessed value of the property was \$3,000,000, the school district issued bonds for building purposes in the amount of \$26,000. There was an additional bond issue of \$15,000 for a gymnasium."
