SCHOOL BLAZE SOON PUT OUT

Pupils' Orderly Exit and Firemen's Response Both Show Efficiency

HUBBARD, Jan. 27.—(Special)—Friday morning, just as the Hubbard school convened for the day, a partition wall on the basement floor caught fire on the inside of the partition. The fire did not show from the basement floor and the first indication that the building was on fire was smoke that came from waste paper chute on the upper floor.

Mr. Painter, the janitor, was first to discover the fire and he gave the signal for fire drill. It was not until half a minute later, when every child was out of the building, that the children realized that the drill was a "real fire."

In another minute the fire company was at the scene and in action. There seemed to be just a shade of disappointment on their faces when they realized that Mr. Painter had put out the fire by the time they got there.

The precision and quickness with which each fireman took his place in response to the call would have been a credit to a fire company of a much larger place than Hubbard. Fire Chief George Grimps remarked, "Well boys, this kind of response shows that our drill has not been for nothing."

As it was, only a small amount of damage was done and in less than half an hour every child was at regular school work. The fire was started by a stove pipe that had settled against the wall.

Give freely

When your Children Cry for It.

Mothers, who take one simple precaution, are seldom worried. With a bottle of Fletcher's Castoria in the house they can do what their doctor would tell them to do, when baby is fretful, feverish, colicky, constipated or stuffed-up with cold—give a few drops of this pure vegetable, pleasant-tasting preparation. It comforts baby and soothes him to sleep in a jiffy. It's perfectly safe for the youngest infant. Use it freely—and as often as needed, specialists advise. A more liberal dose is all it takes to comfort and relieve older children, when feverishness, bad breath, no appetite, colds, etc. show they need a good purging. The mark of genuine Castoria is the Fletcher signature on the wrapper. Look for it to avoid imitations.

A JANUARY SUGGESTION

To Careful Investors

At least once a year the successful merchant takes inventory. The careful investor will likewise find it advantageous to have some one skilled in finance and unprejudiced in investment make an analysis of his holdings. January is a particularly appropriate time for it. There may be some weeding out, some profitable exchanges, discovery of neglected rights and the result will be a better balanced list. In addition to having available a select list of high-grade securities, we serve investors by making such analyses without charge or obligation.
