POMONA MEET WELL ATTENDED

Legislators and Grain Leaders Appear on Program at Brush College

BRUSH COLLEGE, Jan. 31.—(Special)—Owing to the fact that the state legislature is now in session, the many delegates in attendance upon the county organization representing the subordinate granges of the county, and visiting Pomona, members from other counties, were fortunate in hearing from members of the legislative committee of the State Grange, much of interest concerning the attitude of the lawmakers toward the various bills sponsored by the granges and farmers' union organizations of Oregon, on January 26 at Brush College.

A. R. Shumway of Umatilla county, an experienced lobbyist, and a particularly pleasing and effective speaker, made the first talk upon the work of the legislative body of this session, and was followed by L. F. Bailey of Baker, Oregon, both appearing at the lecture hour, the public being welcomed for this, the main feature of Pomona day.

Honey King Heard

Harrison M. Mead, "Bee King of the Willamette Valley," gave an illuminating talk upon the bee industry, stressing the importance of planting sweet clover and alfalfa for the improvement of the flavor of the honey, and the desirability of the "fireweed" for the same reason, warning beginners against carelessness in their methods, and giving a stern warning of contracting and spreading foul brood, the greatest pest of bee diseases. Mrs. Joe Rogers of Oak Point discussed the value of expert leadership, and B. I. Ferguson, who has served as club advisor, gave an interesting talk along practical lines in the industry.

Billie Utley contributed to the pleasure of the company with a solo, "Sonny Boy," his sweet, high soprano voice showing exceptional expression, and carrying quality. As an encore, he gave a humorous musical number, both selections being accompanied by his mother, Mrs. Arthur Utley.

Rupture Is Not A Tear

No Break To Heal

Some people have a mistaken idea that rupture is a tear. Rupture is not a tear, but purely a muscular weakness in the abdominal wall. Trusses merely brace these muscles, but do not strengthen them—on the contrary the ordinary truss pad often increases this weakness, because it tends to shut off blood circulation. STUART'S ADHESIF PLAPAPADS are entirely different—being mechanical-chemical applicators to make self-adhesive, purposely to keep the muscle-tonic called "Plapao" continuously applied to the affected parts, and to minimize danger of slipping and painful friction. No Straps, buckles or springs attached. Soft as velvet—easy to apply—Inexpensive.

Awarded Gold Medal, Rome, Grand Prix, Paris, Honorable Mention, Panama Pacific Exposition, San Francisco, etc. For almost a quarter century satisfied thousands report success—without delay from work. Stacks of sworn testimonials received even from the far corners of the earth. Process of recovery is natural, so no subsequent use for trusses.

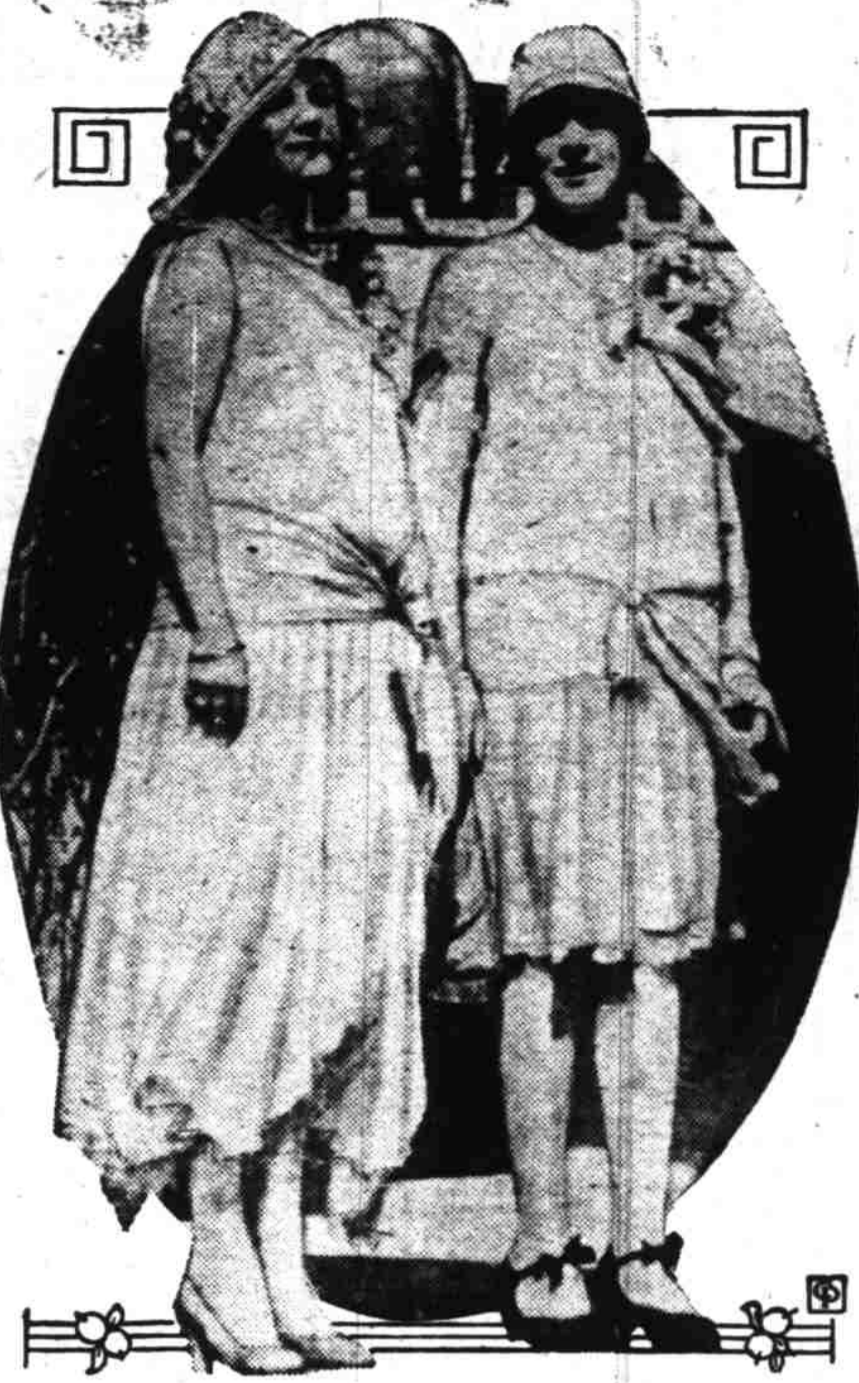

Be Sure to Call Monday, Feb. 4th, at Marion Hotel (Salem) From 10 a.m. to 7 p.m.

Free Demonstration By MR. GUSTAVE MARQUARDT Mr. Marquardt speaks English, German, Italian and French.

It costs you nothing to examine and have demonstrated to you privately this scientific self-treatment, which so many others attest under oath freed them from the truss and saved them from the knife.

Remember the time and place. If not able to call, write for FREE TRIAL PLAPAO. Address Plapao Co., 398 Stuart Bldg., St. Louis, Mo.—adv.

She is shown, right, with Mrs. Herman Dann, of Philadelphia, who welcomed her into the city's social circle.
