

# Riddell Enthused Over Romney Sheep of New Zealand

## 40 ANIMALS IN LOT PURCHASED

### Strict Regulations Placed on Exportations Finds Monmouth Citizen

By Beulah Craver  
 MONMOUTH, Feb. 11.—William Riddell Jr., who reached home this week from a two months' trip in New Zealand, came via Victoria, B. C., on the Aorangi, a Canadian-Australian steamer. He reports a very pleasant journey, found Romney sheep to be the most popular breed in New Zealand where there are more than 1500 registered producing flocks. Strict censorship is imposed on all exported breeding stock by authority of the New Zealand Romney Breeders' association, which permits the shipping of only high grade animals which are rigidly inspected for suitability.

Buyers do not travel at will from farm to farm in quest of sheep as in America. Large brokerage firms which handle wool sales, breeders' commodities and the like, have agents stationed in every town who introduce the buyer to the producers. In fact the producers are apprised by the agent of the buyers' coming that the flocks may be in readiness for inspection. Buyers are placed on a sort of waiting list and must wait for the opportunity to be shown about.

A group of these agents "re-layed" Mr. Riddell wherever he wished to go at the expense of the company. High grade Romney ewes sell there for 20 guineas each and rams for 35 to 500 guineas.

Mr. Riddell bought 40 animals, which include his personal purchase of two choice rams and several ewes. He also bought for W. R. Russ, Eureka; D. N. Gould, Hydeville, Cal.; and for C. G. Gibson, Halsey, A. H. Craven, Monmouth, and Orville Doerflinger, Marion.

These sheep represent one of the finest importations of breeding stock ever brought to America. They will be shipped from New Zealand February 12, as insurance regulations require that sheep be fed for at least two weeks on dry feed prior to shipping, to acustom them to ship-board fare. The sheep reach San Francisco April 1.

## Moroni-Olson To Play at Normal

MONMOUTH, Feb. 11.—Moroni-Olson players will present "Autumn Fire," an Irish folk drama, in the Normal school auditorium Wednesday evening, February 13.

This play was first produced by the Abbey players of London two years ago, where it met with marked success. It is a story of simple folk of Ireland, and ends in a tragedy which holds a lesson for spectators.

This play has met with a cordial reception by American play enthusiasts, and the high production standard of the Moroni-Olson cast is an indication that it will be well received here.

"I smoke a Lucky instead of eating sweets."

Grace M. Hay Drummond Hay

Lady Grace Drummond Hay, only woman passenger on the Graf Zeppelin.

"The fact that we were not permitted to smoke from the time the Graf Zeppelin left Friedrichshafen until we landed at Lakehurst only increased my appetite for a Lucky Strike. Oh, how good that first one tasted! I'm really keen for Lucky Strike—the toasted flavor is delightful. I smoke a Lucky instead of eating sweets—that's what many men have been doing for years. I think it high time we women smoked Luckies and kept our figures trim."

GRACE M. HAY DRUMMOND HAY

The modern common sense way—reach for a Lucky instead of a sweet. Everyone is doing it—men keep healthy and fit, women retain a trim figure. Lucky Strike, the finest tobaccos, skillfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets.

Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say: "It's good to smoke Luckies."

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.
