THE AIRMAIL
By Lowell Stiffler
When I awoke this morning,
The snow was very deep.
I started to school early,
Snowflakes dancing at my feet.
I caught the steady drone of an airplane.
So I let my gaze wander around
The sky.
I saw it, and just sighed and said,
"It's just the air-mail passing by."

THE SNOW
By Stanley Nevens
Winter is calling.
The white snow is falling;
It is falling very fast.
Some people are happy,
And others are sad,
But when it is gone
Most people are glad.

THE SNOW-MAN
By Rosa Kittson
Oh, how snowy it is today.
Let us all go out to play.
Let's make a snow-man, big and fat,
And I'll get my father's old black hat.
We'll make his eyes charcoal black,
So it will match his queer old hat.
We'll put a jacket on him,
Although it might be very thin.
We'll make his arms of a broomstick,
Add some snow to his head.
But when the sun comes out to play,
Mr. Snow-man will all melt away.

Millions of Families Depend on Dr. Caldwell's Prescription

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings to put into their systems. So he wrote a prescription for a laxative to be used by his patients.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1893 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

Under successful management this prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that millions of bottles are used a year proves that it has won the confidence of people who needed it to get relief from headaches, dizziness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now never without Dr. Caldwell's Syrup Pepsin, and if you will only start using it you will also always have a bottle handy for emergencies.

It is particularly pleasing to know that most of it is bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for elderly people. All drug stores have the generous bottles. A trial is sure to convince any household of the merits of this famous prescription.

Clough-Huston Co's History of Salem and the State of Oregon

THE most serious objections to the Columbia River line (outside of national pride) was the fact that there were no good harbors remaining in the territory left to the United States south of the Columbia.

The situation was acute, and rigidly our statesmen held out for the line of 49 to the Straits of Fuca, which gave Puget Sound and all its branches to the United States. And as any map will show today, the United States finally won out on this point.
