# "Voila!" reach for a Lucky instead of a sweet -

the trim figure is always fashionable

Paul Poiret, Famous Parisian Creator of Fashions

"If you want to keep slender (and who doesn't in these days) avoid sweets and smoke Lucky Strikes. There seems to be something about them; possibly the flavor, that satisfies the craving for the rich things that add weight.

"Voila', reach for a Lucky instead of a sweet—the trim figure is always fashionable. Advertisements that I saw when I recently arrived in America, said—"The best way for sugar to be eaten is as a flavorer of foods". They are quite correct in cautioning a modified use of sugar. Sweets to excess are bad. I advocate a few puffs of the Lucky Strike toasted flavor when sweets tempt.

"I may add that I smoke Lucky Strikes myself, and I think they have contributed much to the state of mind which has helped me to create my greatest successes.

"Lucky Strikes are certainly an inspiration!"

PAUL POIRET

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.
