## G. R. Committee Jaeger - Schreiber Makes Plans For Girls Is Saturday Event

Miss Mabel Robertson, dean of women at the Salem high school, spoke to the members of the city Girl Reserve committee at the luncheon and business of the committee at the Y. W. C. A. Saturday noon. Miss Robertson discussed the various problems of the high school girls from the Girl Reserve angle, saying, "It's the mothers I'm gunning for. We are building for the future."

Miss Robertson held in her discussion that every girl is the product of her environment, especially that of the home, and that if there are undesirable conditions in the future it will be because the problems of today have not been met as they should. Concerning her own specific problems, Miss Robertson said, "For every girl who needs a reprimand, there are usually two mothers who are really to blame."

It was particularly interesting to note the sort of home backgrounds from which the girls who constitute the "problems" come. It has been Miss Robertson's experience that the girls who come from normal homes do not, as a rule, require special attention, and that a large per cent of the girls who do present problems come from broken homes—those in which there is but one parent.

The thing that tends to make a dean's work most discouraging, according to Miss Robertson, lies in the fact that immediate results are not often discernable and that frequently mothers call on her to undo in fifteen minutes what is really the result of fifteen years of mistreatment. A number of concrete examples were brought to the attention of the committee as a basis for discussion. The consensus of opinion of the committee was that every girl should be given the opportunity of interesting and wholesome clubwork with other girls that they might derive a common ideal of social dealings and personal standards that they could carry throughout life.

Mrs. Eric Butler advised the committee that what is now the dining room at the Y. W. C. A. will soon be transformed into a clubroom for the various groups of girls who would enjoy it. The transformation will be accomplished with gay caritains, a case of girls' books and various other things of the sort that will make the room attractive to girls.
