S100 REWARD

To anyone that can prove that there is a better tooth being used on artificial dentures today than the Trubyte gold-clad pin tooth.

The dental profession has recognized them as second to none both in shade, the general shape, the life-like appearance they have.

These are the teeth that will be used if you have your plates made in my office. Demand these teeth from your dentist. In doing this you will be assured of the best. Teeth that will harmonize with the general contour ofyour features, that will blend in with nature's color and will give you durability that I believe no other tooth possesses. Don't allow yourself to be fooled or talked into or made believe by your dentist that other teeth are just as
