Heavy Fighting Reported Near Monterey, Important Railway Center

By The Associated Press The first blood has been shed in Mexican revolution but both federals and insurgents yesterday still were more intent on mobilization and consolidation of positions than upon testing their strength

in armed combat. The rebels claimed a signal victory at Monterey with hundreds of federals and war materials captured and federal General Lurrica killed. Another version gave the number of federal defenders as 40. Reports favorable to the rebel cause were received of armed clashes near Mazatlan, Sinaola; Torreon, Coahuila; and Cananea, Sonora. Confirmed reports at Juarez, Mexico, were that the rebels also had captured Chihauhaua City.

Nearby Rebels Are To Be Attacked First The federals struck first at the menace nearest the capital. It was announced that the entire garrison of Orizaba, state of Vera Cruz, had surrendered to their advance from Mexico City. Tampico loyalists laid down an embargo against Vera Cruz to cut the rebels off in their rear. Vera Crus, however, stated that Mexican naval vessels stationed there had declared for the rebel cause.
