MISS LORD AT STAYTON AFFAIR

Gardens Subject She Discusses With Marked Understanding

STAYTON, March 23.—Miss Elizabeth Lord of Salem spoke before the Women's club at its regular meeting. Her topic was "Gardens" and she has made a study of garden both in the states and abroad her talk was very interesting and instructive. Some of the things mentioned by Miss Lord that have to do with beautifying the average yard or garden were: "First of all plants, shrubs, flowers should take second place as they are really only a decoration."

Overplanting Frowned On—"Don't overplant, however, far better to plant for the future. Study the size a plant or shrub will attain as to have an idea of the effect it will create." Stay on simple lines, elaborate pools with lots of rocks and cement are liable to be grotesque instead of a thing of beauty.

In planting a border, don't plant tall, medium and low, mix the plants up. This gives a very pleasing effect. Miss Lord held the undecided attention of her listeners for an hour or more so interesting was her talk and the pictures which accompanied it some which were passed among the club members. Every woman there learned something which will help to make her own yard or garden more attractive.

Miss Lord was accompanied to Stayton by Mrs. Clement, also of Salem. Refreshments served. At the close of Miss Lord's address the committee in charge, Mrs. Doris Purser, Mrs. Ross Bell, Mrs. Nora Gardner and Mrs. Lena Silharvey served cake and tea.

Arrangement Made to Haul Children to Monmouth for Schooling

MONMOUTH, March 23.—Residents of the Elkins school district No. 28, have decided by a vote of 10 to 9 to close their community school at the end of the year and transport their children by school bus to Monmouth where entrance arrangements have been made. Elkins now has two teachers, Melford M. Nelson in charge of sixth, seventh and eighth grades, and Miss Verna Tittle in charge of the lower grades. There are 26 children enrolled.

About 15 years ago at the instigation of Professor M. S. Pittman, Elkins became affiliated with Oregon Normal school as that institution's first rural training center. This connection was severed in 1927, largely because of the decrease in pupil enrollment.

Elkins is a pioneer among the rural schools of Polk county, and the school has long figured as one of the most popular social community centers in this section. Maintenance of the building will probably be continued for Sunday school and other community activities.

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time regardless of how much one tries to avoid it. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can not harm the most delicate system and is not a habit forming preparation. Syrup Pepsin is pleasant-tasting, and youngsters love it. It does not grip.
