

RICHFIELD ETHYL IS SOON TO MAKE DEBUT

Smith & Gilbert Local Distributors for New Product on Market

The newest and speediest "team" of the automobile fuel world—Richfield-Ethyl gasoline—is to have its debut in Salem within a very short time.

News that the new scarlet-hued gasoline, under the blue and gold banner of the Richfield Oil Company, would shortly be installed in service station pumps of independent dealers in this city was received here today by Smith and Gilbert, local distributors.

Coinciding with the Ethyl company's announcement was the disclosure by the local dealers that the Richfield which forms the base for the new hatched fuel is truly a new and specially developed high-compression gasoline.

"Richfield for three years has been developing, from lessons learned on the speedways and in the air, a specially effective fuel for high-compression-head motors. When this fuel was finally brought to its peak point of perfection, it was decided—in order to give mo-

Farm Relief is Studied by Senate Agricultural Body With View to Framing Bill

WASHINGTON, Mar. 25—(AP)—A start was made by the senate agricultural committee today on the drafting of one of the major pieces of legislation to which the Hoover administration has been pledged, that of farm relief.

The committee assembled with a view of expediting its work so that a new farm bill, a substitute for the twice vetoed McNary-Haughen measure, will be ready for the seventy-first congress when it convenes in special session April 15 to consider the farm question along with that of tariff revision.

The greater part of today's session was devoted to a study of the maximum efficiency for their new motors—to blend this gas with Ethyl Anti-knock compound," it was stated here today.

ATTEND FIRE MEETING
F. A. Elliott, state forester, and Porter King, left Monday for LaGrande, where they will attend a meeting of the fire patrol association of Union, Baker and Wallawa counties.

meeting was taken up by an explanation of a plan by Senator Brookhart, republican, Iowa, who said he believed it would meet with the approval of President Hoover. The committee also found time to hear a number of witnesses discuss the farm situation.

As the question went forward a number of committee members indicated that they would like to have some specific information from the White House as to what should go into the new bill and a suggestion was made that if this should not be forthcoming the committee should confer with Mr. Hoover before actually writing the measure.

Hoover's Ideas Wanted
Senator Brookhart was questioned as to whether he had any definite information on how President Hoover looked upon his proposal. He said he had talked it over with the president and that while he had been given no assurances he "would not be advocating it here now if I thought it would be vetoed."

The Iowa plan contemplates a huge revolving fund of more

than a billion dollars with which the government would purchase crops so as to relieve the domestic market of a surplus and would provide a subsidy up to \$600,000,000 to take care of any losses incurred by selling surpluses on world markets at prices less than those paid for the crops.

Production Costs Studied
It would endeavor to establish the cost of production and would arbitrarily fix the prices of crops at a sum 5 per cent in excess of the cost of production.

After Brookhart had explained his plan, Senator McNary of Oregon, chairman of the committee, declared that President Hoover had spoken against price-fixing, and any method which would put the government directly into the agricultural business. He asked Senator Brookhart whether in view of this position of the president he felt the plan had any chance of success. The Iowa congressman said the bill would be approved.
