

SEARCH FOR LOST PLANE FRUITLESS

SYDNEY, N. S. W., April 4.—(AP)—The search for the airplane Southern Cross and the four men it carried which has been carried on since Monday by native runners, launches and airplanes still has been unsuccessful and nothing had been learned to relieve the general anxiety for the fliers.

Two additional planes today joined the hunt. One, "The Canberra," is the largest airplane in New South Wales and is equipped with radio. The other is an amphibian plane of the defense department, which was thought to be especially well suited for the work since bodies of water offer the best landing places in the rough country being searched. Three other airplanes probably will join in the work soon.

Nothing has yet been heard here from the native runners who are searching the sparsely peopled country in the vicinity of Wyndham. The silence of the lost men has not been regarded as necessarily a bad omen since their radio generator was operated by air driven apparatus which would not function if they landed.

The Southern Cross, veteran of a flight across the Pacific from the United States, was en route to England with two of its original crew and two other men when it disappeared.

CHICAGO HELD NOT 'WHOOPEE' CENTER

CHICAGO, April 4.—(AP)—There is a time and place for everything, and Chicago is not a whoopee center, a young man from Winnemucca, Nevada, was advised Wednesday by Judge F. L. Fairbank.

The young man was Robert Glinchy, captain of his home town basketball team competing in the University of Chicago tournament. The charge was disturbing the peace.

"Honestly, judge, we were only making whoopee," pleaded the captain who, with his team mates was wearing cowboy regalia, silk shirts, handkerchiefs and ten-gallon hats, just like rodeo stars.

AIRPORT CERTAIN

Albany's municipal airport has been made a certainty by the passage of an ordinance authorizing a \$25,000 bond issue to purchase 135 acres of land east of the city.

\$100,000 Yacht For Air Travel Sold to Fisher

DETROIT, April 4.—(AP)—A \$100,000 air "yacht" was delivered today to Lawrence P. Fisher, president of the Cadillac Motor Car company, and a vice president of General Motors corporation. "I just bought it for little trips here and there," commented Fisher as he viewed the mammoth trimotored Fokker monoplane for the first time. "It'll be handy to have around."

The ship is the largest yet produced by Fokker. In the 14-passenger cabin are all the comforts of the crack train club car, including a kitchen.

ANSWER IS VOICED BY RAILROAD HEAD

KLAMATH FALLS, Ore., Apr. 4.—(AP)—Harry M. Adams, San Francisco, president of the Western Pacific railroad, in a speech bristling with replies to the Southern Pacific's opposition to the extension of his road from Keddle or Paxton, Cal., to Lookout, Cal., to connect with the Great Northern extension from Klamath Falls, set forth his company's views at a chamber of commerce luncheon Wednesday. Adams charged the Southern Pacific officials with misleading the public. He referred to a statement of I. H. Dyer, general manager of the Southern Pacific, on comparative mileage between different points served by the Southern Pacific and the proposed new extension.

"One of the southern Pacific's principal points of argument," Adams said, "is that investment of the extension would require the interstate commerce commission to increase freight rates to bring the affected railroads a fair return; that the result of the extension would mean a higher railroad tariff. Nothing could be more untrue."

Philippine Goods Feared, California

SACRAMENTO, Cal., April 4.—(AP)—The California legislature prepared Wednesday to forward to President Herbert Hoover and members of congress copies of an adopted resolution urging congressional adoption and administrative leadership toward restoration of adequate tariffs on imports of agricultural products from the Philippines. The resolution originated in and was adopted by the senate. The assembly passed the measure today.
