48 Students From Salem on Campus at Eugene; Places In Activities Prominent
Sports, Dramatics, Student Body Organization Affairs Take up Time of Local Young People, Apart From Study Duties

UNIVERSITY OF OREGON, Eugene, April 4.—Salem students who returned to the University of Oregon for the spring term number 48. Their prospects are for a busy time in activities on the campus. Three of this number are seniors this year and looking forward to graduation in June. They are Lois Hockett, Dorothy Baker and Fred Johnson. Another student from Salem, Lester Oehler, will also receive his degree from law school in June and at the present time is serving as president of the law school student body.

With spring term many students from Salem will find themselves engaged in spring sports track, baseball, swimming and tennis, with conference contests in all four sports. A mainstay of the Oregon varsity on the mound of the baseball diamond will be Reynolds MacDonald of Salem, a sophomore in the school of business administration, and a member of Sigma Nu fraternity. Harold Olin, also a sophomore in education and affiliated with Beta Theta Pi, is also expected to turn out for baseball.

Siegmund After Letter
Edward Siegmund, who made his letter in freshman track last year, is expected to make a place on the varsity track team this year. He is a sophomore in business administration and a member of Beta Theta Pi fraternity.

Three Salem men, John Creech, Ronello Lewis and Harold Olin, will represent themselves on the varsity swimming squad this year. All are sophomores this year. Bishop and Lewis majoring in business administration and Creech in pre-medicine.

Aside from the attractiveness of spring sports at the university, with the spacious tennis courts and other outdoor facilities, and the natural beauty of the campus which is at its best at this time of the year, there are numerous other advantages in study at the University of Oregon in the spring term. The department of English, because of the policy of the university in eliminating as much as possible the plan of carrying over courses from one term to another, students who enter at the opening of the spring term will find themselves at no disadvantage and may enter classes where all students, old and new, are beginning work together.

This, it is pointed out, is particularly desirable for students who were graduated from their high schools at the middle of the regular school year. By coming to the university at the opening of the spring term, they will save a great deal of time which would probably be wasted waiting for the opening of the college year next fall.

The registrar's office is now busy segregating the course which will be open for entrance at the beginning of spring term. These courses range over the whole field of university work, so that students at any stage of their college careers who have not been in school winter term or who wish to transfer from other colleges, will find it easy to fit into the study program at the University of Oregon.

Salem students are active in other lines also, besides the sport and academic sides, and spring term will find Phyllis Van Kimmell, sophomore in journalism, busy at her work on the campus movie, in which she is to have one of the leading parts. Miss Van Kimmell is affiliated with Kappa Kappa Gamma, sorority and is secretary of the sophomore class.

Miss Nancy Thielson and Edward Fisher, Ivan Katoury and John Heitzel, all members of the glee club, will continue their work along that line, working with the university choir at the present time on the Easter cantata.

ROAD HEARINGS TO BE STAGED TODAY
Hearing on three road matters will be up this morning at the county court, although all of the petitions to be reviewed call for only realignments of existing routes or short construction.

A delegation from the Pudding river bottom district appeared before the court Thursday asking that construction be started early on the Mt. Angel-Gervais road through this district, a road recently placed on the market road program of the county.

The petitioners were informed by the court that no decision had as yet been reached on which roads on the market road program would be built first, the matter resting largely on accessibility of gravel to the roads under construction.

276 NAMES PLACED ON GRADUATION LIST
Principal J. C. Nelson of the Salem high school was happy Thursday afternoon. The 276th senior had qualified for graduation. Which means that the 1929 class will at least equal the record class of 1926, when 276 diplomas were granted. Thelma Lovell was the 276th to apply for graduation, with transfer of credits from her former school in Kent, Wash., clearing up her deficiencies.

Mr. Nelson says he would not be surprised should several other seniors find that they have enough credits to graduate this year, thus breaking the record of all time at the high school.
