

WEATHER HOLDS BACK CLEAN-UP

Woodburn Council Delves
Into Problem of Hand-
ling Tax Property

WOODBURN, April 18.—Clean-up Day which was set at April 22 and 23 at the last council meeting was indefinitely postponed at the regular meeting of the council Tuesday evening. The date will be set by the mayor as soon as weather conditions permit.

Considerable discussion arose Tuesday evening over the handling and disposal of various city properties. It was finally decided that the city treasurer and recorder should obtain and publish a tax list on property that has been taken over by the city for delinquent taxes. Some of the property with buildings will be rented.

An ordinance providing for the issuance of warrants for the construction of certain sidewalks in the city was read and passed by the council. A bid of \$2.20 per yard of gravel for use in the improvement of North Sixth street was submitted by the Rigdon brothers and was accepted, on condition that the grading of the street be completed by the city before May 15.

E. R. Rigdon will also furnish gravel for the improvement of North Fifth street, each property owner to stand the cost of the work adjoining his property. The city is to do the grading.

A representative of the Oregon Gravel company of Salem quoted prices of culvert pipe to be used in the near future in sewer work.

STUDENTS PLAN TO VIE FOR HONORS

Useful and Practical Work
of Chemistry is Sub-
ject for Themes

DALLAS, April 18.—Beginning this year there will be a new activity in Dallas high school. This is in the form of a chemistry contest authorized by the American Chemical association. The purpose of this contest is to encourage the study of this very useful and protracted phase of high school work.

In schools with less than 24 chemistry students such as Dallas, three entries are allowed. Then for every additional 10 students one additional entry is allowed. Thus, in the state of Oregon several hundred students will compete for the honors in a contest which will be held in different high schools of the state on May 10.

To Cover All Phases
This examination will cover three phases of chemistry, mainly general elementary chemistry, chemistry and its relation to industry and laboratory work.

The team chosen to represent Dallas high in this contest is comprised of Miss Dorothy Minnich, Mr. Wendell DeHaven and David Peters.

The school receiving highest average will receive a silver cup. The team is working hard and have hopes of adding another trophy to the Dallas high shelf.

KUMM HAS GREAT LUCK IN FISHING

FRUITLAND, April 18.—Mrs. Maude Horton and daughter, Minnie Jean, are visiting with her mother, Mrs. Orsa Fors. She has recently come from Wheeler where her husband is employed in a meat market. Due to Mr. Horton's grandmother's death they will remain in the community for two or three days. They are expecting to return by way of Portland late Friday evening.

Mr. and Mrs. Franklin Egger motored to Portland Tuesday evening on business. They will return the latter part of this week.

John Kumm returned Wednesday evening from a two-day fishing trip. He seemed to have more than a fisherman's luck as he returned with 27 rainbow and mountain trout, ranging from eight to sixteen inches long. If there had been a meat market near the river in which he was fishing we would have been tempted to believe this as a fish story which is frequently the case. Never-the-less John is an honest man.

Calvin Hart, who has recently bought the home of Noble Andrews, is expected to take possession sometime the latter part of this month. Because of the bad weather for moving he has continued his work in town. He is employed with the Northwest Canning company of Salem.

"Mac" McGuire and Leon Brown motored to Salem on business Wednesday afternoon.

T. G. Simpson and Leon Gird who have been ill with pneumonia and a light attack of influenza find that their conditions are confining them to their beds for the remainder of the week, although physicians say their conditions are not serious.

OREGON STATE AGRICULTURAL COLLEGE, Corvallis, April 18.—Marrs Gist of Salem, senior in agriculture, has been cast for one of the leading parts in "Nada", all-men's annual musical comedy.

Gist had a prominent part in the production last year. In this show he will be a fanatic, woman-hating reformer who is trying to break up a harem. The sultan is unwilling to part with any of his wives and the reformer takes it upon himself to perform the task.

The follies will be given May 17 and 18 as part of the junior week end program. It will be the second production of this kind on the campus.

The boys and girls baseball teams of Brownsville played the local teams on the high school grounds Wednesday afternoon. The boys lost to Brownsville, with a score of 5 to 14, while the girls team won by a score of 1 to 1.
