ANNIVERSARY IS OBSERVED

Espee to Celebrate Birthday May 10; Whole United States Invited

Southern Pacific is going to wish itself many happy returns of its sixtieth birthday May 10 and is inviting the entire Pacific slope to face with two Andalusian girls to putting on the counter a travel bargain—a round trip between any two points on Pacific lines for 60 per cent of the one way fare—there is going to be a birthday party that night.

Because its family is so big—nearly 60,000 in the west and southwest—the birthday will be up in the air—broadcast by radio from station KPO, San Francisco, over the Pacific coast network of the National Broadcasting company, and Salt Lake, Utah.

Reinhold Warren, famous baritone, will help make the party a success, coming all the way from New York just to do so.

On May 10, 1869, at Promontory, Utah, the Central Pacific, first unit of the Southern Pacific—building east from Sacramento, met the Union Pacific building west from Omaha.

With a silver hammer Governor Leland Stanford, one of the builders of the Central Pacific, drove a golden spike into a laurel tree, and all the country made "whoopie" over the completion of the first transcontinental railroad.

At the radio celebration May 10 from 9:30 to 10:30 p.m. Pacific standard time, the story of the conquest of the Sierra and of the desert—one of the epics of pioneer accomplishment, will be told.

Clara Bow Copied All Over World

Do you think that there is only one Clara Bow?

If you do you are wrong, according to George N. Kates, head of the foreign relations department of the Paramount studios, from says that there are literally thousands of Clara Bows all over the world.

Among the conclusions Kates made in a study of foreign needs in motion pictures was the one that Clara Bow is no longer an ash in the grave.

"Had Clara Bow been a cashier in a vinegar factory she would have grown up solely herself," Kates said recently. "But instead she chose to enter the motion picture and because she has become the most popular of feminine stars, she has followers all over the world."

"One informant recently wrote that the shock of his life came while strolling down a quaint old land in Spain when he came face to face with two Andalusian girls wearing their hair exactly as does Clara Bow and looking strikingly like her."

"It's the same the world over. Go into any high school today and you'll see Clara Bow there. On a recent trip to New York I purposely studied the groups of villagers at the stations in each town and in each gathering there was a Clara Bow."

Greater impetus to the Bow mannerism went and to the fact for Bow hair-dressing is expected from the next international "Wild Party," an all-talking, "The Wild Party" of flaming and unbridled youth on the campus, is now the current attraction at the Elsinore with Fanchon & Marco vaudeville as the stage attraction.

'SHOW BOAT' BOOKED AS UNUSUAL DRAMA

More Than 1000 People Take Part in Play to Start at Capitol May 15

"Show Boat," offered the greatest material for a stage attraction that has ever been presented to us. That it is sure fire speaks from the success it has had in being glad to cooperate with Carl Lamme during his production of his motion picture version of "Show Boat."

This statement, which is made by Florenz Ziegfeld, famous stage producer in the Ziegfeld Follies production of "Show Boat," which opens at Bligh's Capitol theatre Wednesday, May 15, is the strongest endorsement this theatrical leader has ever given any attraction. Ziegfeld helped Mr. Laemmle in producing the motion picture which will grace the Capitol screen by using his stars, musical numbers and dialogue in the movie-tone translation of the story to the silver screen.

Such Ziegfeld celebrities as Helen Morgan, Jules Bledsoe, Aun' Jamison and the Ziegfeld Follies chorus appear in a specially produced three reel prologue, and sing such numbers as "Old Man River," "Can't Help Lovin' That Man," "Bill," "Hey Feller," "Show Boat," "Lonesome Road" and a number of negro spirituals. The music is also used on the movie-tone accompaniment of the feature.

Laura La Plant plays Magnolia in "Show Boat," while Joseph Schildkraut is cast as Ravenal, the actor-gambler. Others of prominence in the list of 100 principals are Zaza Foy, Vera, Otis Harlan, Emily Fitzroy, Neeley Edwards and Alma Reubens. More than 1000 players appear in the huge ensembles.

"Show Boat" is described as a two and one-half hour road show de luxe, but despite its magnitude, special class negotiated by Frank Bligh, with Carl Laemmle, president of Universal, permits the showing in Salem on a continuous show basis, and at the usual Capitol costs.

COOK RELEASED TO MAKE GOOD PROMISE

Charges Against Salem Attorney Not to be Pressed at Present

DALLAS, May 3.—Faced with the alternative of an operation or court trial on charge of sexual perversion, Harold Cook of Salem voluntarily requested the former before Judge McMahan in circuit court here this afternoon. The judge instructed T. B. Hooker to release Cook under custody of a deputy who would be charged with seeing that Cook in making a plea before the court, Cook charged that he had been the subject of considerable abuse and humiliation and stated that he was nevertheless going to continue his practice of law and to make himself a worthy citizen.

The court, upon agreement with District Attorney Harcombe, indicated that the indictment against Cook would not be pressed provided he made good on his promise.

Earlier this week Cook had been taken to the state hospital for observation but officials there refused to any steps without a court order.

Applications of 20 to 40 tons of barnyard manure an acre are not uncommon, the crops are in such cases often grown on the same land several years in succession. Cost of handling makes it desirable to produce this heavy yielding, water crop fairly close to the place where it is to be stored. Commercial fertilizers, particularly superphosphate in the coast region, helps to secure a larger yield of roots.

Rich soil, in good producing condition is necessary to secure a large yield of root crops in Oregon, finds the experiment station.
