The Tariff on Garlic

"THE tariff on garlic is decreased." Thus read a line in L the newspaper report of changes in the tariff. In the midst of the monotonous succession of increases, this stood out like a sore thumb. We thought it must be a mistake till the official bill came alone to verify the item. It is indeed true, the new tariff lowers the duty on garlic.

How does this occur? Are not the garlic growers to have the benefit of the protective system? Are they not languishing in the face of foreign competition? The cost of production abroad is far lower than it is here, and the tariff schould be increased in order to preserve the American standard of garlic-living.

Surely this is a serious mistake. Marion county, particularly Aumsville (or is it Gervais?) must be the garlic center of the country. Our slogan editor will attest this fact. Nowhere else is garlic so good and so odorous raised. It must be the Ku Klux Klan has had a hand in lowering the garlic tariff. We thought this was to be a tariff of, by, and for the farmers. If so, why is garlic discriminated against? Split peas get an increase, and soya beans, and mushrooms, likewise turnips and radishes; also red, white and sweet clover, and alfalfa gets better protection. Garlic alone has to bear the gaff of revision downward. No, not alone, we do see that urea gets transferred to the free list.

The only way we can figure it out is that the garlic eaters have formed an association with a paid secretary and a press agent. It must be so. When the "Garlic Eaters Protective Association" opened headquarters in Washington, D. C., then congressmen began to sit up and take notice. It would not do to offend such a band of voters. Perhaps the secretary cracked the whip and had a shower of pro-garlic telegrams descend on the ways and means committee. Perhaps like a skillful lobbyist he took a few members of the sub-committee out and treated them to garlic and gave them a recipe books showing how 42 delicious dishes could be cooked out of garlic. Perhaps he showed how it could be delicacy. At any rate, he "did his stuff." The garlic-eaters Roseburg, April 22, 1881, the for- his doings in Washington; espewon a real victory. Though the garlic-growers are forced mer fast friend and whilom po- cially concerning his relationship to abandon their homes and their patches, the garlic-eaters are made solid for the candidates of the grand old party.

Williams fled to Rhode Island and made a haven for the persecuted Baptists of early colonial times. But the spirit of Lords" of the Baptist Union heads.

Seeding Catfish in the Willamette T is good news to transplanted mid-westerners that catfish are to be planted in the Willamette. Probably some of them will be stuck in the old "Long Tom" which would be appropriate. Oregon could then advertise "Long Tomcat Fish," which could be made into a good slogan.

There is more pleasure in fishing for catfish to the immigrant from Kansas than in any of your dry-fly, wet-fly, spoon, trolling or such sort of fishing that your native Oregonian takes to. The way to catfish is to get a throwline about 50 feet long with hooks attached near the end and a weight at the end to anchor the line. With the shore end Editor of the Statesman. fastened to a peg in the mud, your true Kansas or Missouri Dear Sir; fisherman can lie on the grassy bank and sleep for half-an hour, or watch the clouds float lazily overhead. He can spit lem's traffic cops marking cars on his beefsteak and boil his coffee in an old tomato can without any mental disturbance. Occasionally he can saunter down and pull in his line, rebait his hooks and toss them out | was hard to see. again. He may catch a carp or a redhorse, sometimes a real sucker; but the big hope is to land a channel catfish.

If he takes his fishing a little more strenuously he can sit on the bank and fish with a bamboo pole and a bobber on the line to give the signal when to heave. There is more meditation per diem in catfish fishing than in a week of but it seems Salem needs the rout fishing. We shall expect the Kansas picnic this summer to pass resolutions of appreciation commending the game commission for seeding some channel cats in the Willamette. store would have to find his car
